St. Clair Yearbook Banner Program

When the students at SCHS first walked through the doors on September 2, 2008, they quickly learned that this year was going to be different. Sure, the school was still the same, no classrooms were remodeled, instead, Student Council spent their summer trying to remodel the attitude of the student body. For the upperclassmen, always harassing the freshmen has been a tradition. But a select group of students have taken the initiative to try to make a positive change. Entering SCHS as a freshman, you need to realize that you are going to have to put hours of hard work and dedication into your time spent here, so why not spend it wisely? The whole idea is really simple: the attitude in which you approach things can make all the difference.

A very popular theme among the school this year is, "Be the change you wish to see." It can start with one person, yourself, change your attitude in class, change your attitude among your peers, just change yourself. Instead of booing the freshmen, let's welcome them to our school. Let us compete and respect each other despite age. The yearbook you are looking at was inspired by change. Many other organizations throughout the school are all seeing the change. As we embark into the future, people around the world are learning to embrace change. And here in our own country, we have embraced change by electing President Barrack Obama. There is nothing wrong with change, as long as you can accept it yourself.

WISH TO SEE!

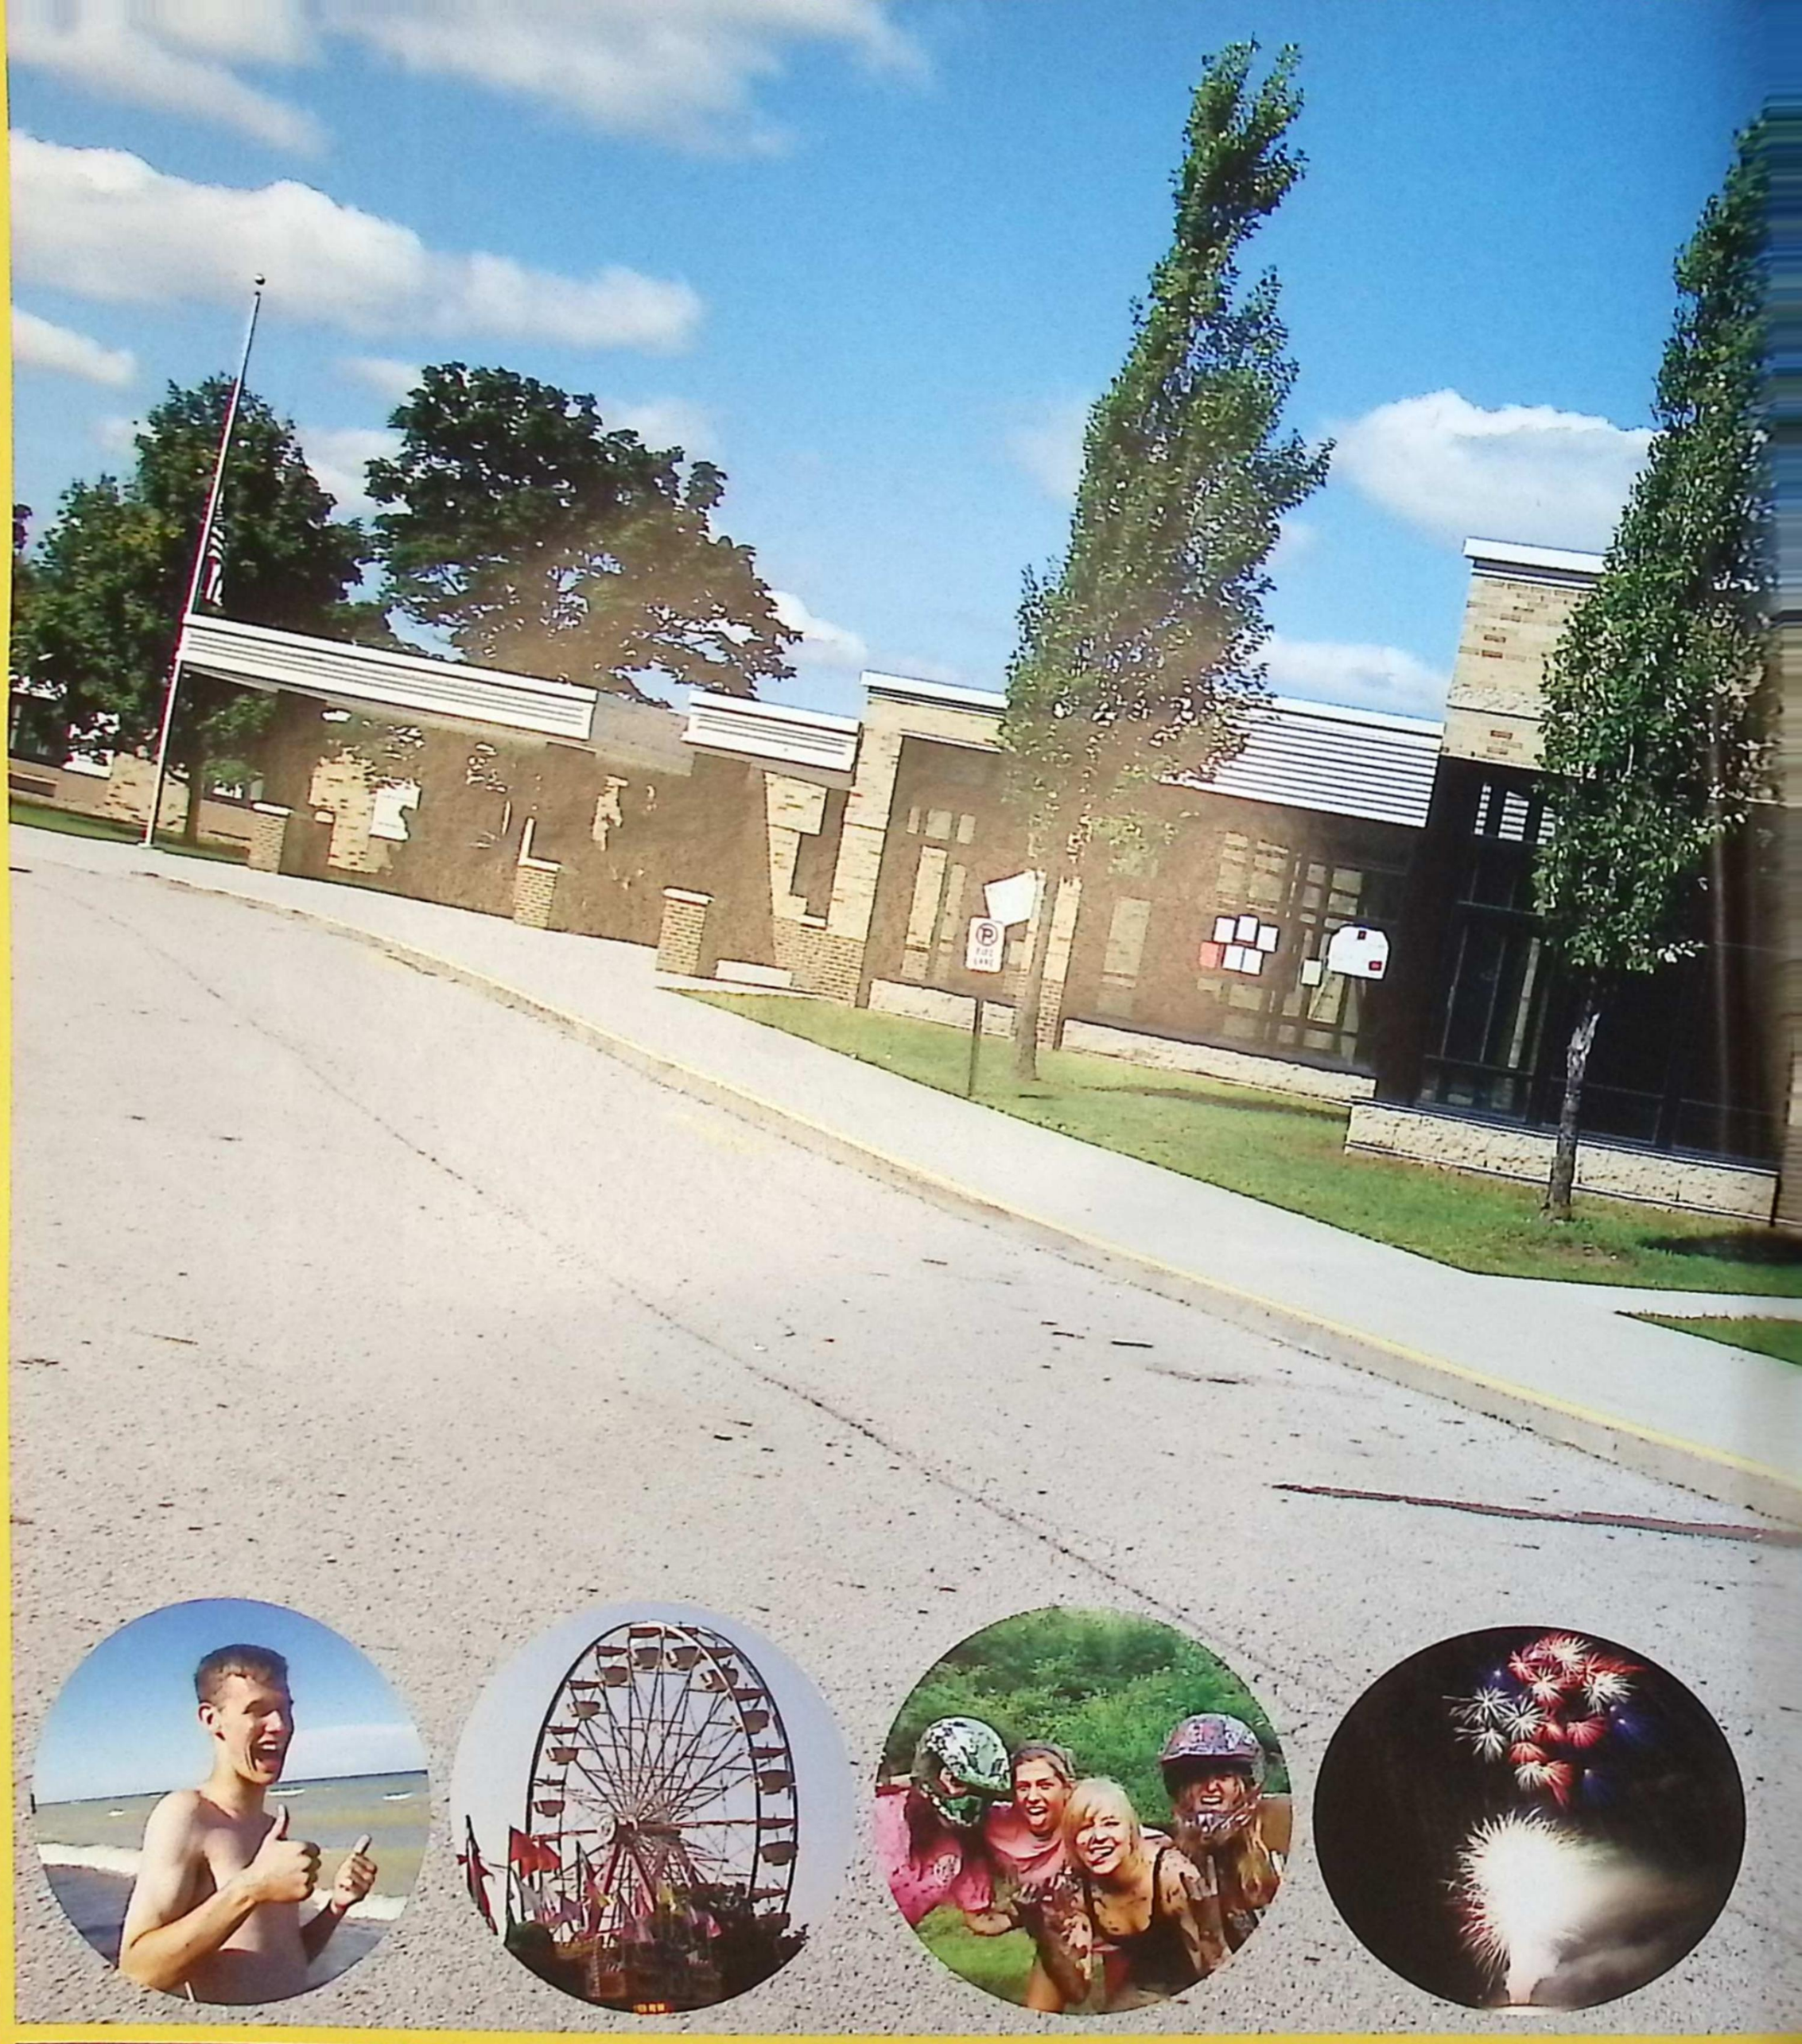
SUMMER DIVISION



PAGES 6 - 7

June 12, 2008, SCHS students favorite day of the year; the last day of the school year. Summer kicks off with a whirlwind of events for students. For some, summer means staying up late, sleeping in, and lying on the beach having lazy days. For other students, summer is a continuation of working just as hard as they did during the school year. Students participate in sports and work a job. Even with all the hard work that students do, there is always fun to be had in St. Clair. Whether it's downtown during the Fourth of July Fireworks, the Art Fair, the Off Shore Boat Races; just hanging out on the boardwalk, or in Sue's having a coffee, you can

SUMMER 2008

always keep busy. No matter how their summer goes, students dread the first day of school and all the work that goes along with it. Yet at the same time they also look forward to Friday night football games, homecoming, red and blue spirit days and many other events that go on during the upcoming school year. Although September 2, 2008 brings the humdrums of yet another school year; we also look forward to welcoming the new freshmen class and reuniting with fellow returning underclassmen. It is on this "last" first day of school that the senior class looks forward to possibly one of their best years at St. Clair High School.

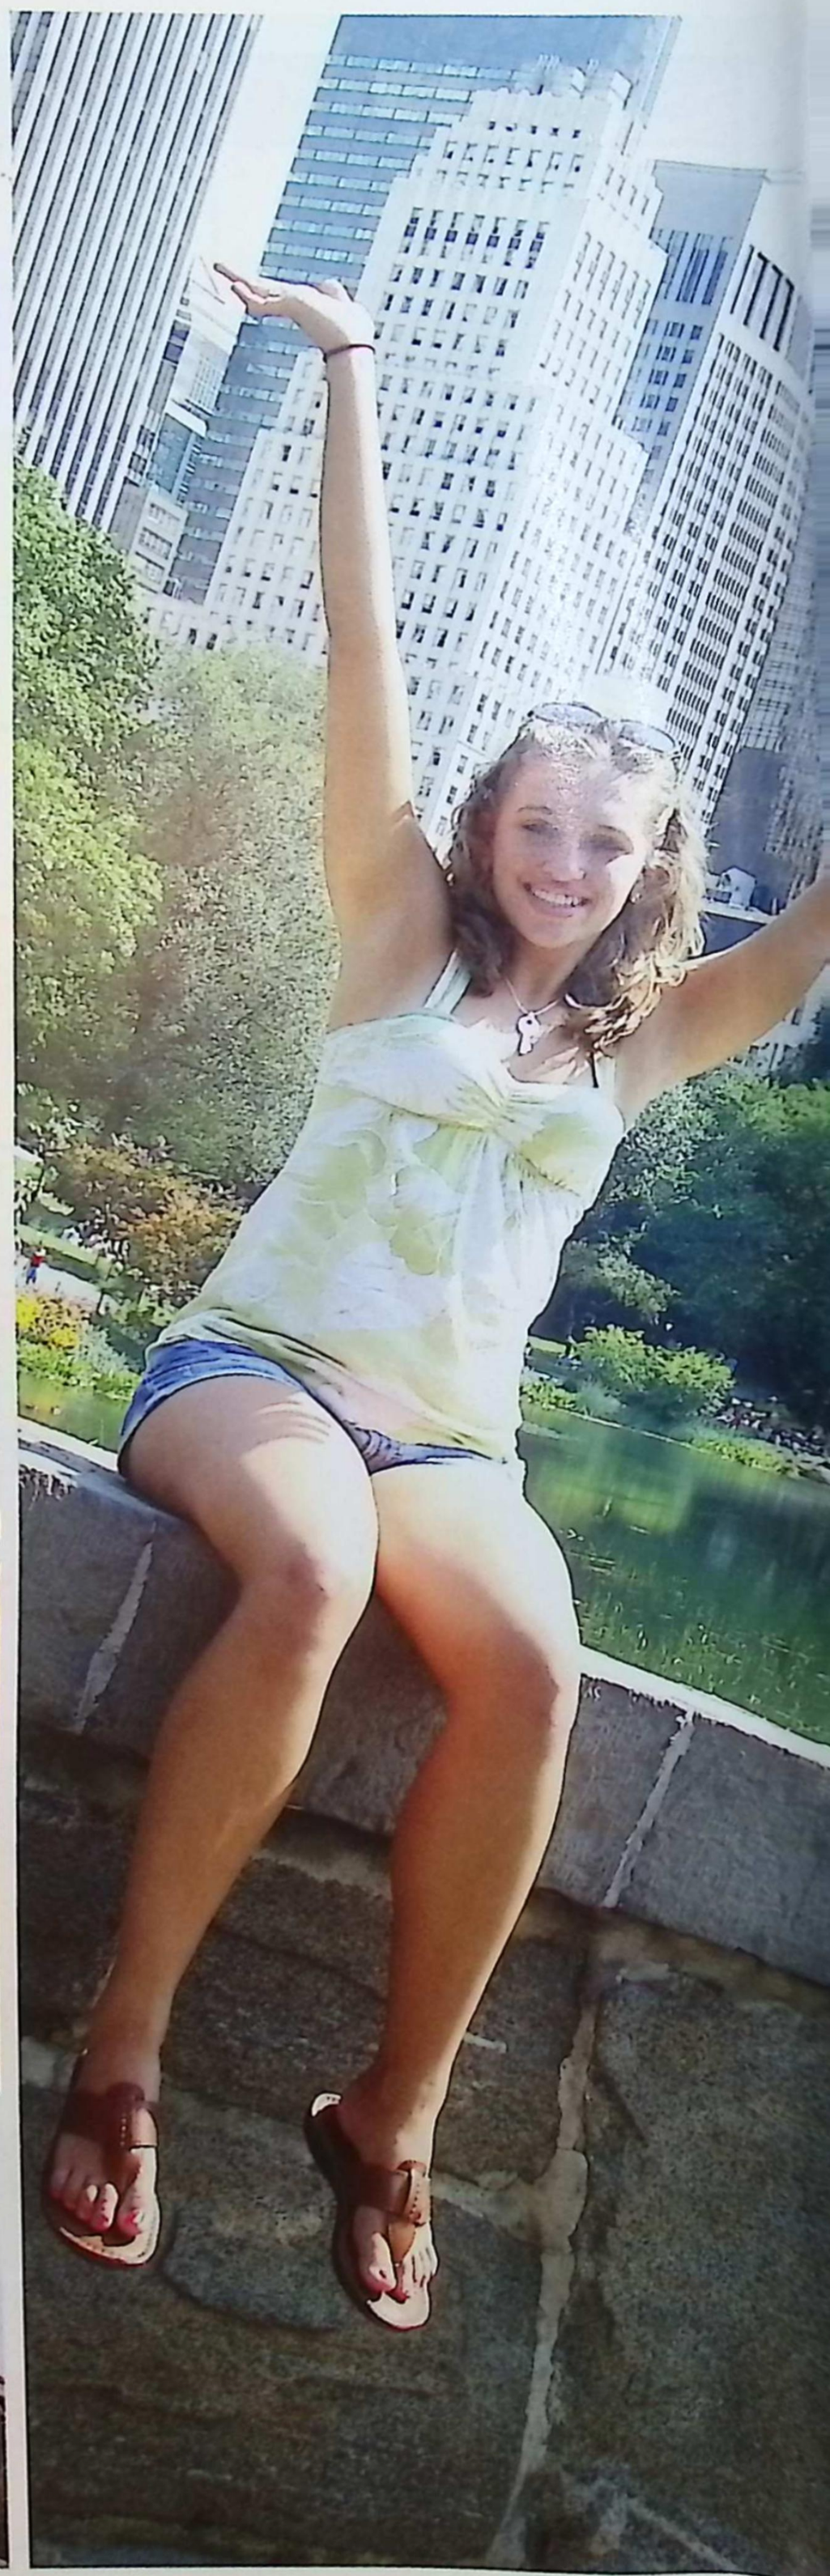
NYC, HERE I COME

Junior, Cheyenne Womack shows her excitement as she throws her hands in the air while sitting on a bridge in Central Park- the New York City skyline is in her background.



RIDE WARRIORS

Seniors, Brandon Rhein, Tabitha Hines and Natalie Russo tough it out as they plummet down a 145-foot drop on the stand up coaster, The Mantis, while at Cedar Point with a church group.

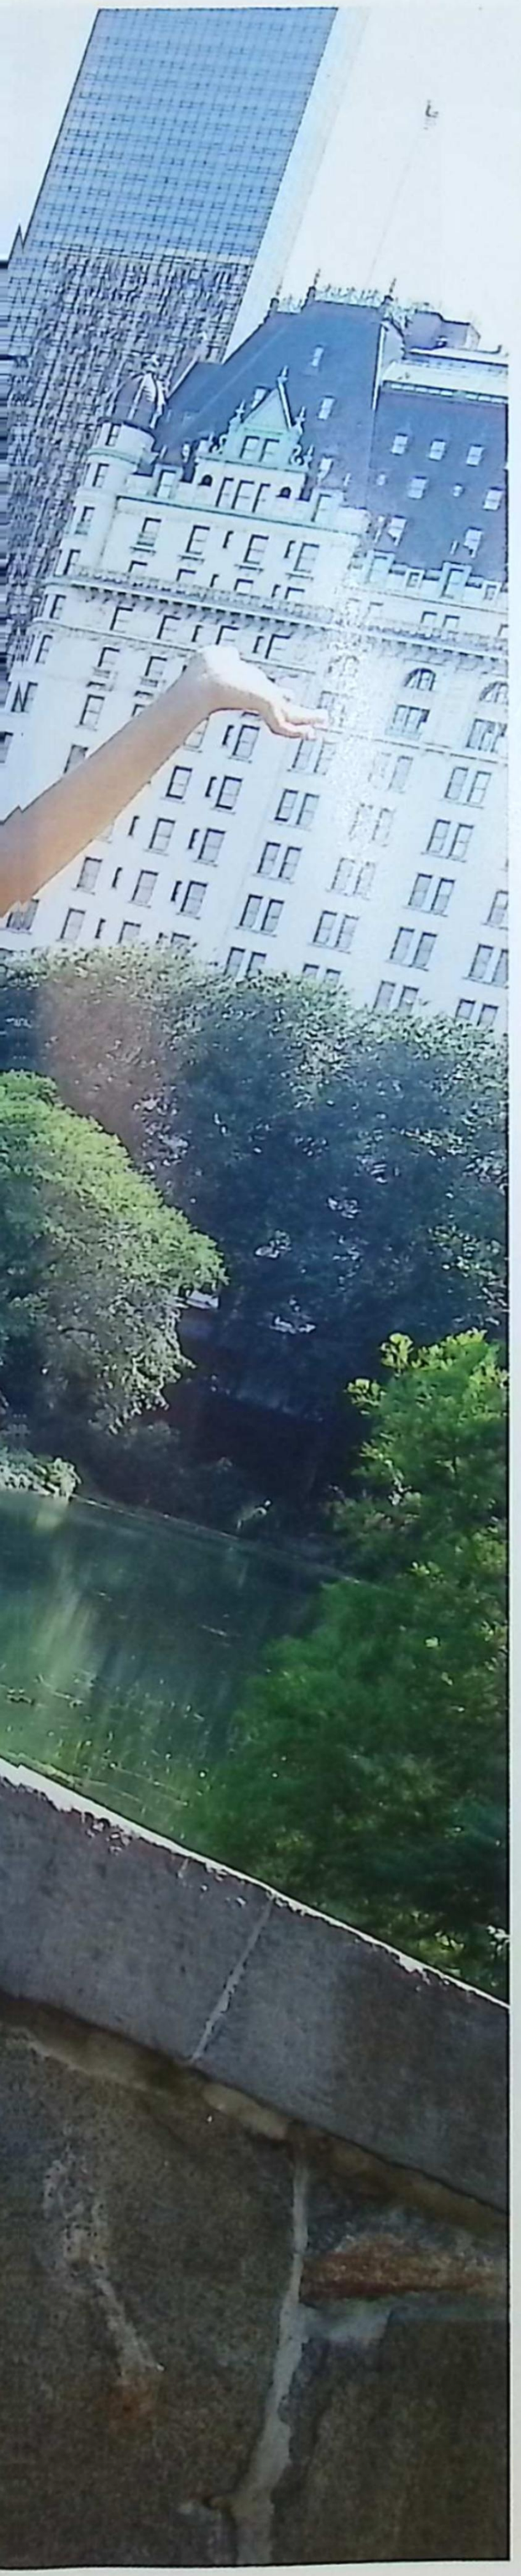
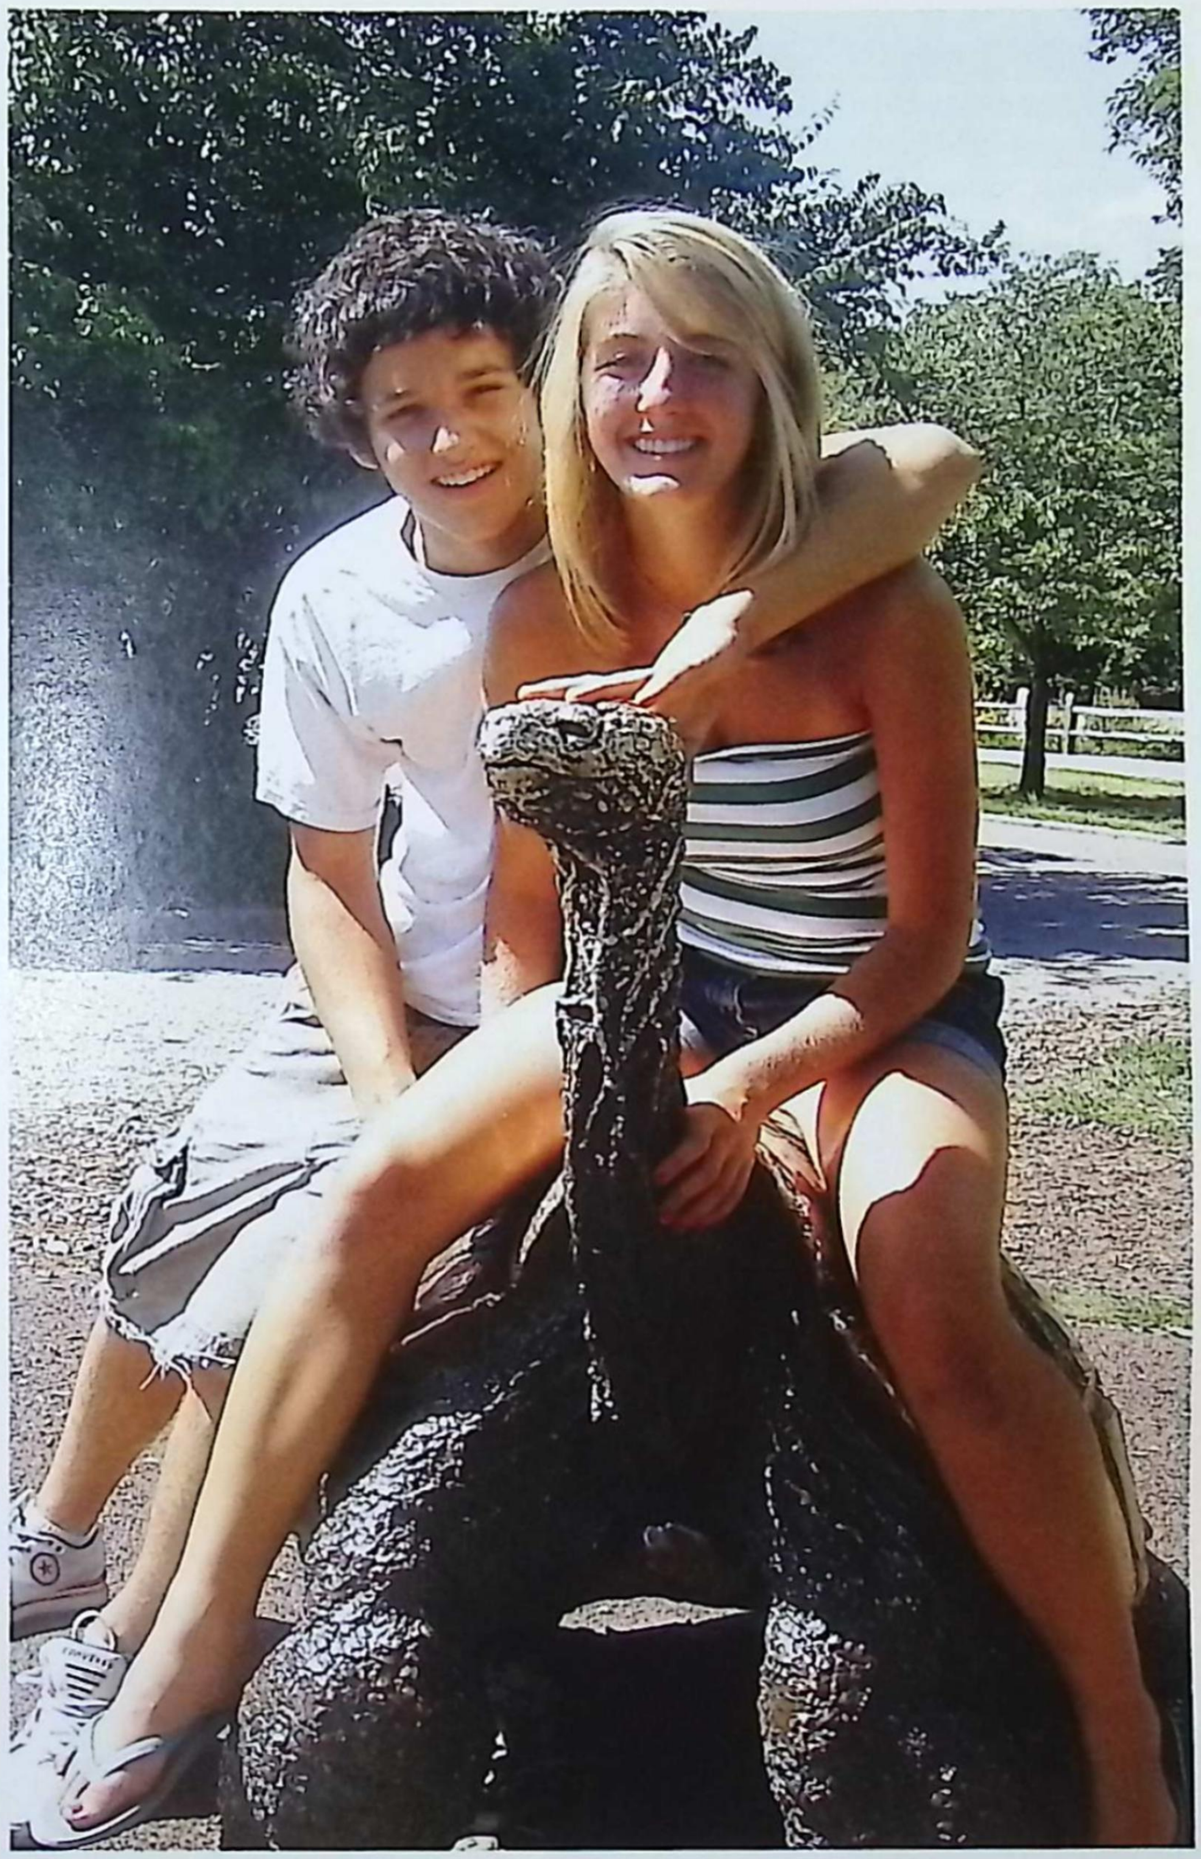
Observing the beautiful scenery while visiting the Rocky Mountain National Park in Colorado, junior, Hayden LaBelle stands tall on the top of a cliff, admiring the view.





PIT STOP

Senior, Dennis Suozzi and junior, Alayssia Jabiro take a quick break to sit on a turtle statue while at the Detroit Zoo for their one year anniversary.

BOARDWALK BUM

Spending her summer vacation at home, freshmen, Ashley Ritter holds onto the railing at the boardwalk in St. Clair, hoping not to fall in, as she hangs out with her friends downtown.

SUMMER VACATION

"Singing sweet home Alabama all summer long"

With the sun shining all summer long, the students at SCHS spent their summers travelling from place to place, making memory after memory. As they packed up their suitcases, charged their IPods and hit the road, they waved goodbye to tiny St. Clair to make their summer one to remember. Some traveled down south making a splash in the waves, some felt the adrenaline rush as they plummeted down a 300 foot hill on a roller coaster; while others held family reunions all over the country.

Some Students traveled across the globe. Students like freshman, Kayleigh Gauthier had a marvelous time in Europe and she said, "Even though it rained a lot in England, it was all worth it, tasting the chocolate there...it made Hershey's taste like wax!"

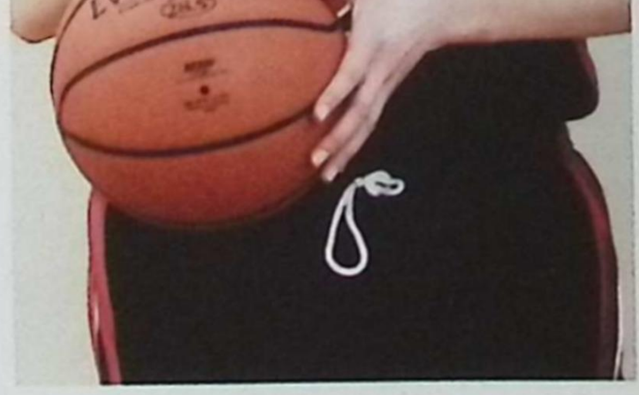
Whether it was fun in the sun, working on their tans, renewing their beauty sleep; spending time with their friends, and of course listening to Kid Rock everyday on the radio; students at SCHS cherished their vacations and the summer of 2008.

SUMMER SPORTS

"Those were the best days of my life"

As the school year came to a close students immediately started trying out, practicing, and preparing for summer sports. The students put in a lot of time and hard work to better themselves for the seasons ahead. Many high school athletes compete on multiple summer sports teams and play on several high school teams that participate in tournaments and camps all over the state. Students also learn to deal with the struggle of working and also making it to their sporting events. Junior, Karly Starbuck explains, "My boss was really flexible when it came to sports, he didn't mind if I showed up a couple of minutes late. Mr. Rutledge was also understanding when I couldn't make it to some of the camps."

Other students came across experiences of a lifetime and memories that would stay with them forever. Our own athletes competed in national and state tournaments; others were invited to prestigious camps all over the country. Several freshmen and sophomores were thankful to the upperclassmen for sharing their knowledge. In a few years, they too will be the ones lending a hand to struggling younger athletes of the school.



FOCUSING ON THE RIM

Preparing to shoot a free throw, senior, Gina Vito focuses on the rim. The Pistons Girls' Travel Basketball Team won the state tournament and made a good run at nationals.

HEEL CLICKER

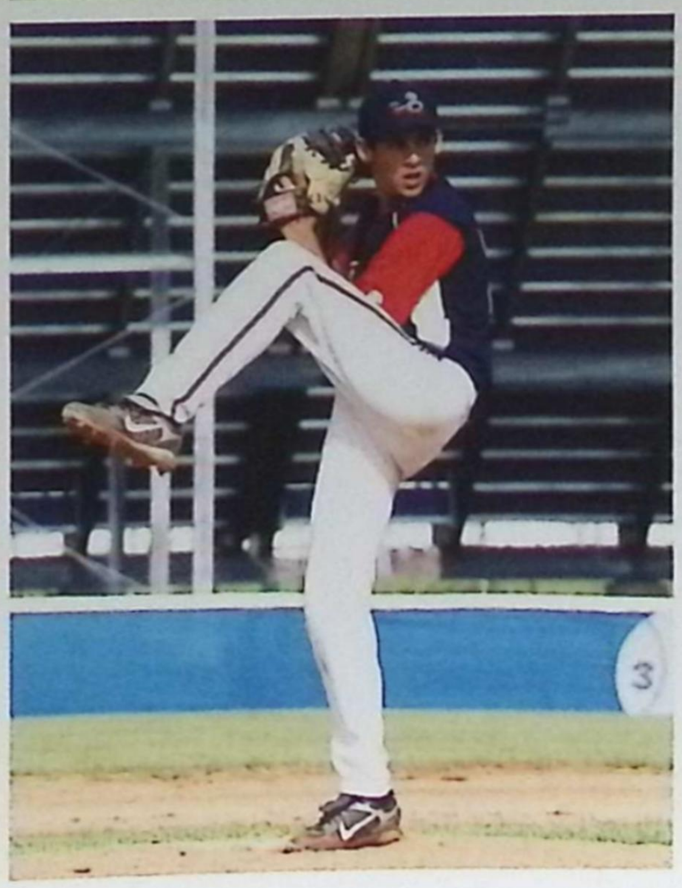
At a fair cross race in Sandusky, senior, Brent Mireau performs a heel clicker. Brent took first place and has been competing in fair cross races since he was seven years old.

SOCCER SKILLS

At a summer practice junior, Sam Karan and freshman, Nate Shrapnell show off their soccer skills. They demonstrate that hard work and dedication in the off season certainly pays off as they begin their season on August 18th.

HUDDLE UP DEFENSE

The infielders of the SC Federation baseball team, junior, Andrew Rossi, sophomores Scott Young and Zach Gomola huddle at the mound before the inning to wish senior pitcher, Tommy Hanrahan a bit of luck.



SUPER CHEER

At the Champion Cheer Team camp, the Saints competed in a contest of the coolest costumes. The movie that the Lady Saints chose (to base their outfits on) was Superman. Later that day they revealed them in a parade.

PERFECT PITCH

Sophomore, Joel Seddon prepares for a pitch on his travel baseball team. The NFWB Cobras had a winning record of 31-11 over the summer and participated in tournaments from Battle Creek to Chicago.

SUMMER CAMPS

Making memories you'll never forget.

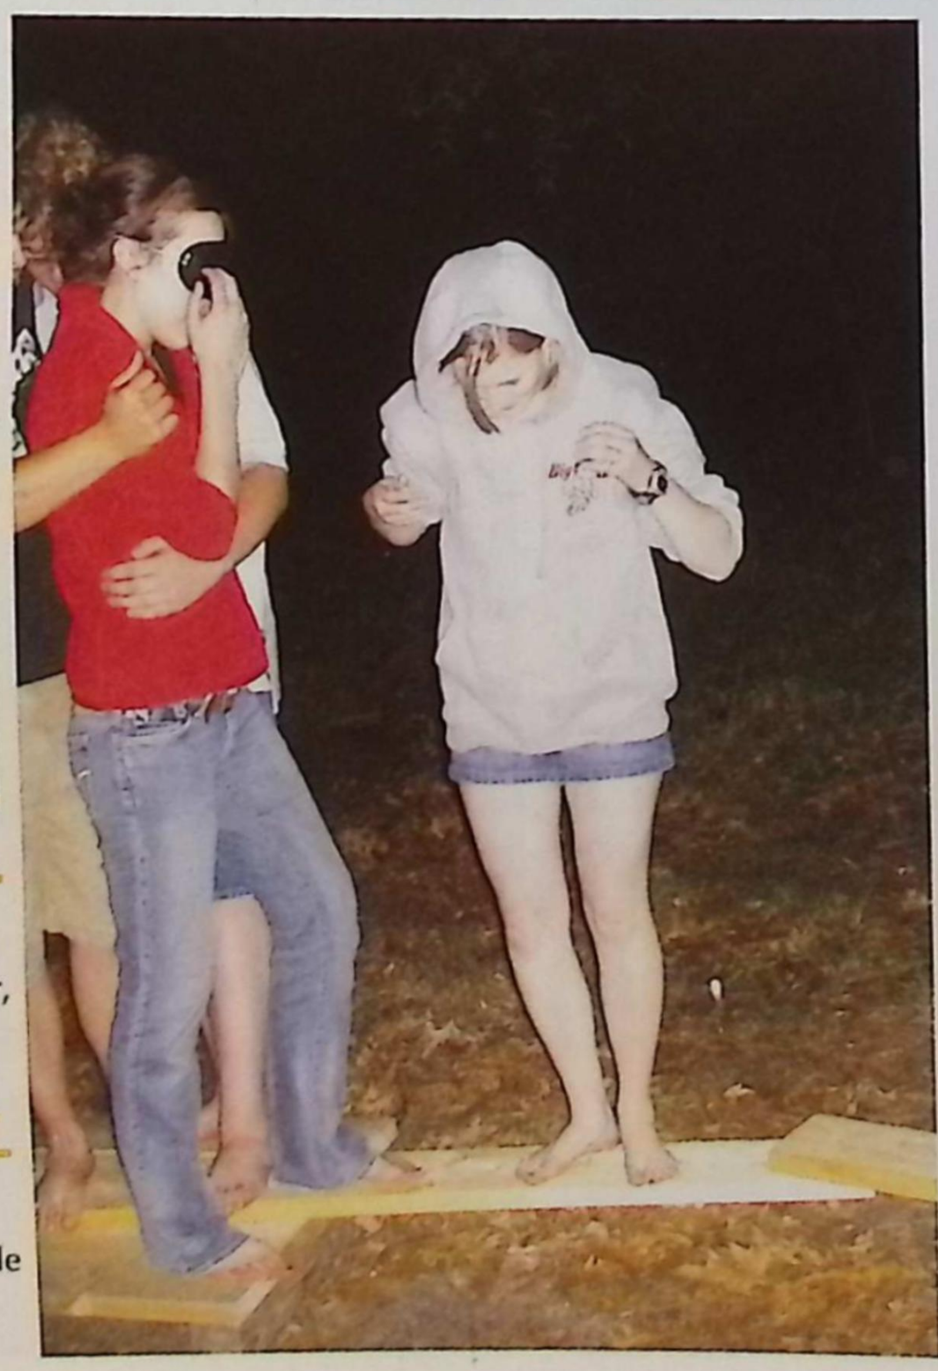
From camping in the woods with the leadership team, to sweating like pigs for a week learning this years Guitar Hero show at band camp; St. Clair High School students were busy all summer with various camps for numerous academic and organizational groups. The first group to head to camp was the theater troupe. They went to the Stratford and Shaw Theater Festival where they saw a few plays and learned how to become better performers; they were also able to witness the natural beauty of The Niagara Falls. The Student Council leadership team was next as they packed their bags and spent four days camping at The Pinery. Here they learned how to successfully run a committee, and had a great bonding experience. Next was a small group of students from the Student Council; they were off for a long weekend at M.A.S.C. Leadership Camp, which was hosted at Albion College. Once on campus, they were forced to interact with hundreds of students from other schools and acquired new leadership qualities. The last academic camp of the summer was the long and dreaded week of band camp. Behind the Immanuel Lutheran Church, on Ninth Street, the Marching Saints spent nine hours a day, for five straight days, learning the steps and music to this years Guitar Hero show. Not only did our academic camps make us better leaders, actors, and marchers, but through summer camps, the students at St. Clair High School made memories that will last a lifetime.

TRY TO 'ACT' COOL

Taking in the breathtaking view of the Niagara Falls are seniors Gail Faustyn, Ryan Gladfelter and Ryan Davis as they try to show off their best "blue steel".

MARK TIME: FOUR!

Keeping perfect time with the metro-nome, these members of the Marching Saints practice marching from one block to another, as they memorize steps for *Frankenstein*.



YOU LOSE YOUR SIGHT

Long into the night at The Pinery, the members play a game of "peak to peak", learning new leadership skills, senior Camille Sharrow is blinded as senior, Lizzi Wayne helps guide her.

CARDBOARD CUP

At M.A.S.C. Camp, senior, Alex Benda is paired with a student from another school to make a container out of cardboard. Here they test how well their work paid off while pouring water into the "cup".

FALL TRYOUTS

New year, new teams, and new competition

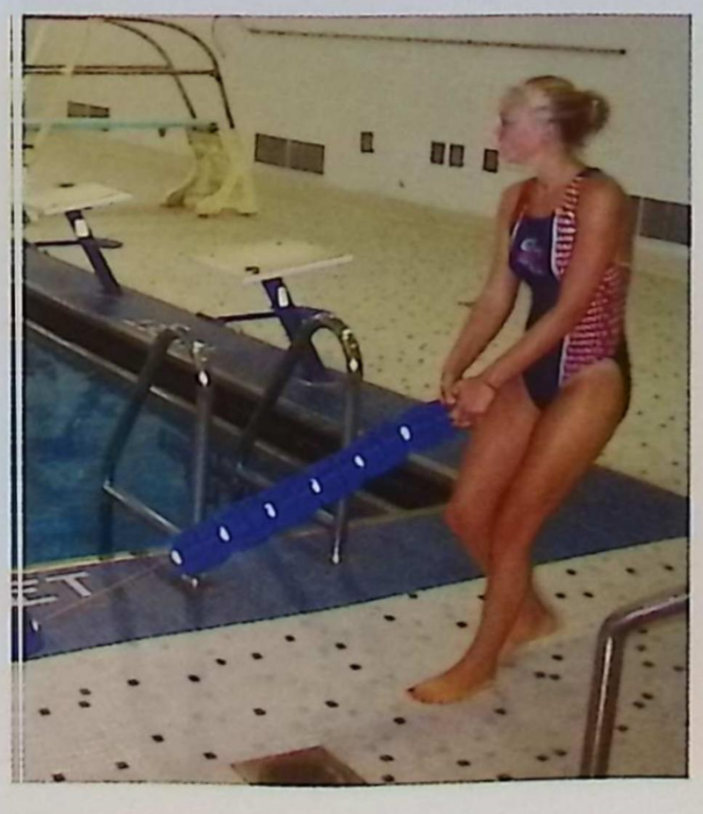
As the summer begins to wind down, students at SCHS start to prepare themselves for the upcoming year. As stressful as this yearly metamorphosis is, some students make the transition from summer to fall sooner than others by participating in school sports. Fall sports are a great way to reunite with old friends and meet new people. However, sports are not necessarily meant to be just a social get together; they are a reflection of our school and the community. Athletes throughout the state of Michigan and the St. Clair Saints have continually made everyone proud. To make these fall teams as successful as possible, many teams begin tryouts and first practices long before the actual school year begins. In other words, for most of the St. Clair Saints, school doesn't begin on September 2, it begins August 12.

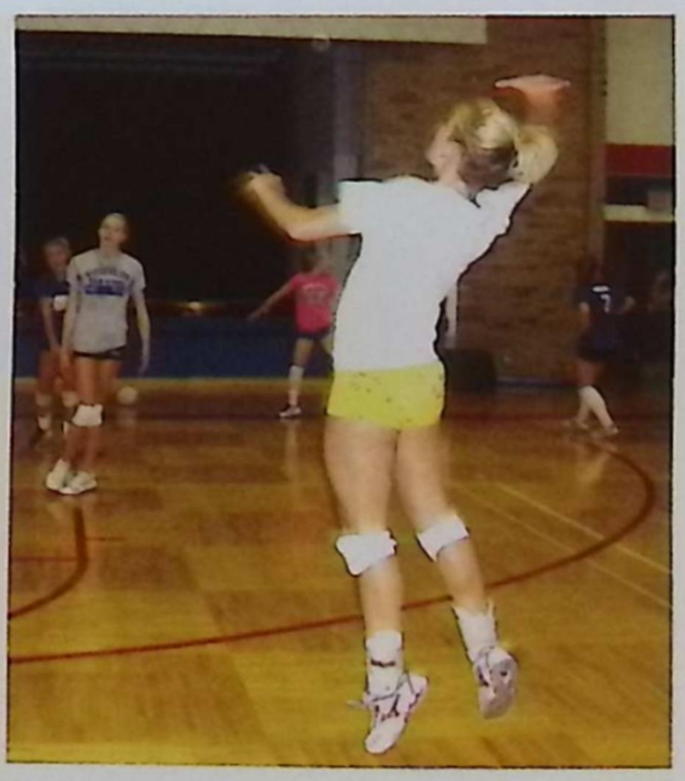
FLYING HIGH

Sophomore, Brooke Saunders swiftly defies gravity and impresses her coach with her aerial move during tryouts at Riverview East High School.

MAKING HER MARK

Junior, Deanna Mayworm sets up the lane markers prior to tryouts in the St. Clair High School natatorium.





SMACK DOWN

Junior, Lindsey Warner forcefully spikes the ball into the opponents court while her future teammates support her at the net with block coverage.

FULL ON CONTACT

Freshman, Grant Lapeer brings his "A game" against sophomore, Sean Denny. Both guys give it their all, hoping to make the varsity soccer team.

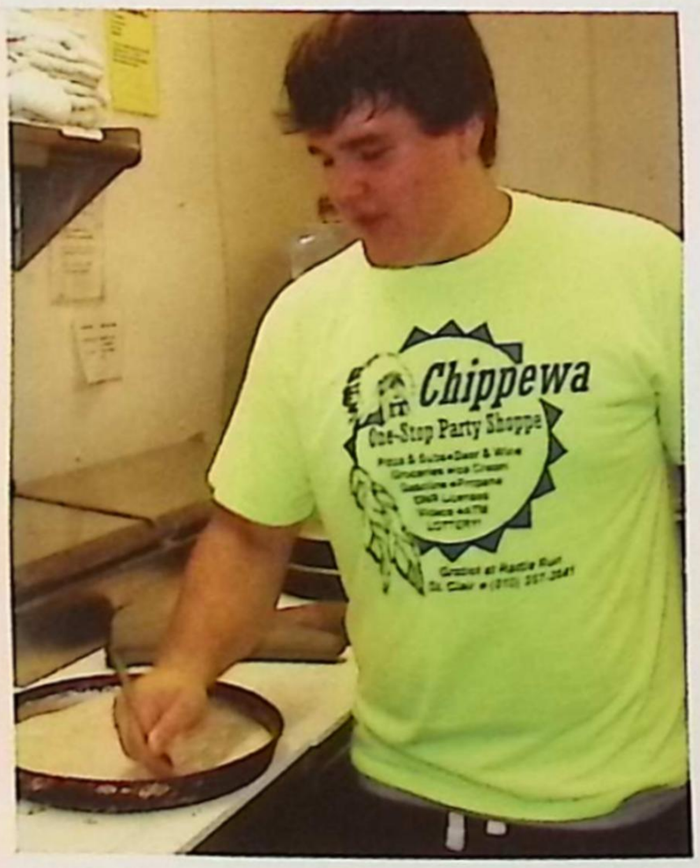
STUDENT JOBS

Working hard... or hardly working?

Q: If you could change your Job for any dream Job, what would it be?
A: Current Job: Cook
Dream Job: Cowboy
-P. Tennant '09 (SC Country Club)

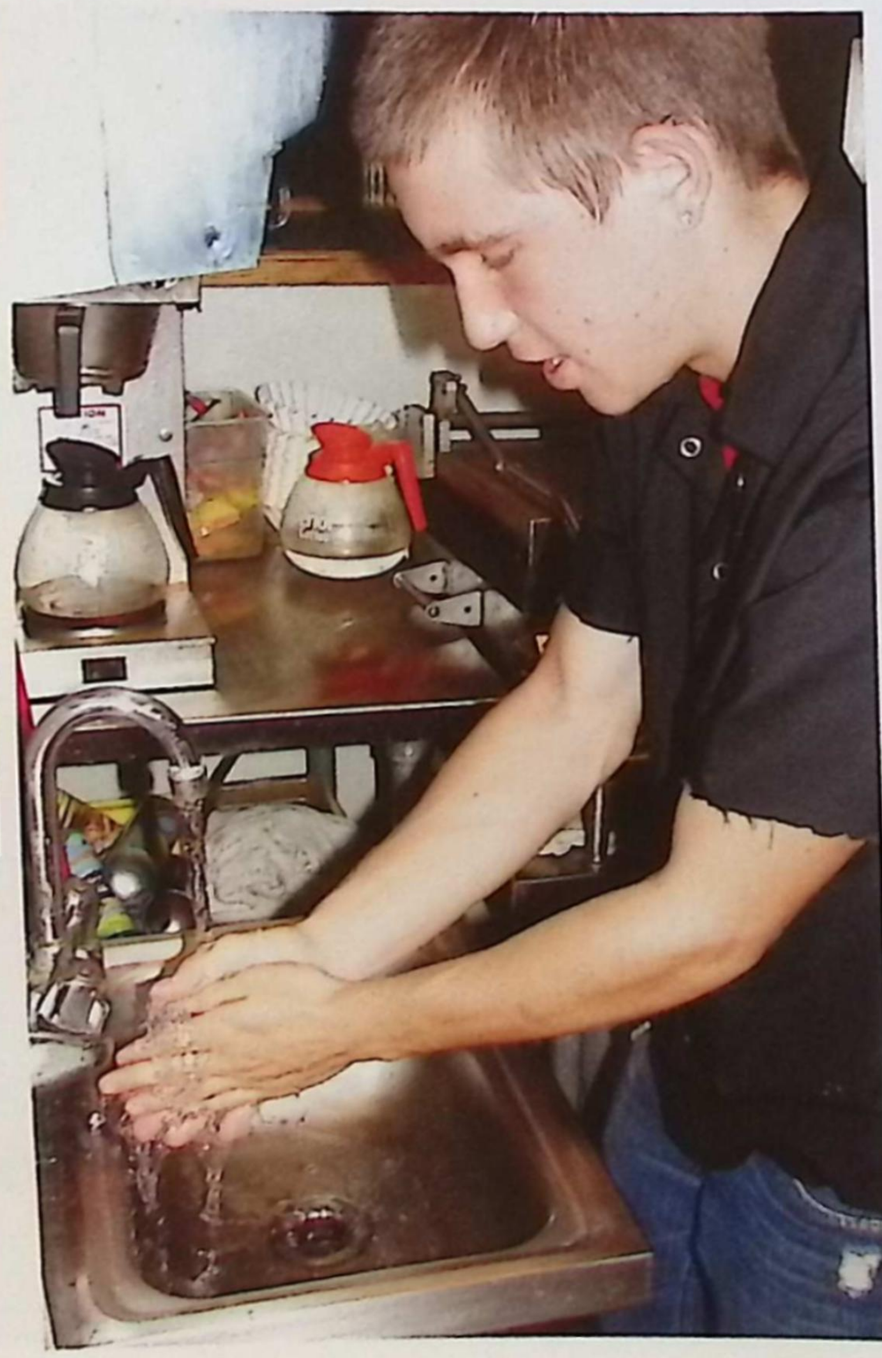
Q: Most embarrassing day at the Job:
A: "Once a waitress threw away an $800 check and the customer told the cooks that if we found the check, she would give us $200. Let's just say I thought that doing dishes was bad; digging through garbage is much worse!
-A. Fluery '10 (The Voyageur)

Q: Worst clean-up story?
A: "Trying to get the sinks as spotless as Paul Gaedcke can; it's ridiculous how clean he gets them... I try so hard."
-N. Hudolin '09 (Chippewa One Stop)



HOT AND READY

Trying not to get behind schedule, senior Nick Hudolin, carefully prepares a delicious pizza at Chippewa One Stop.



RINSE AND REPEAT

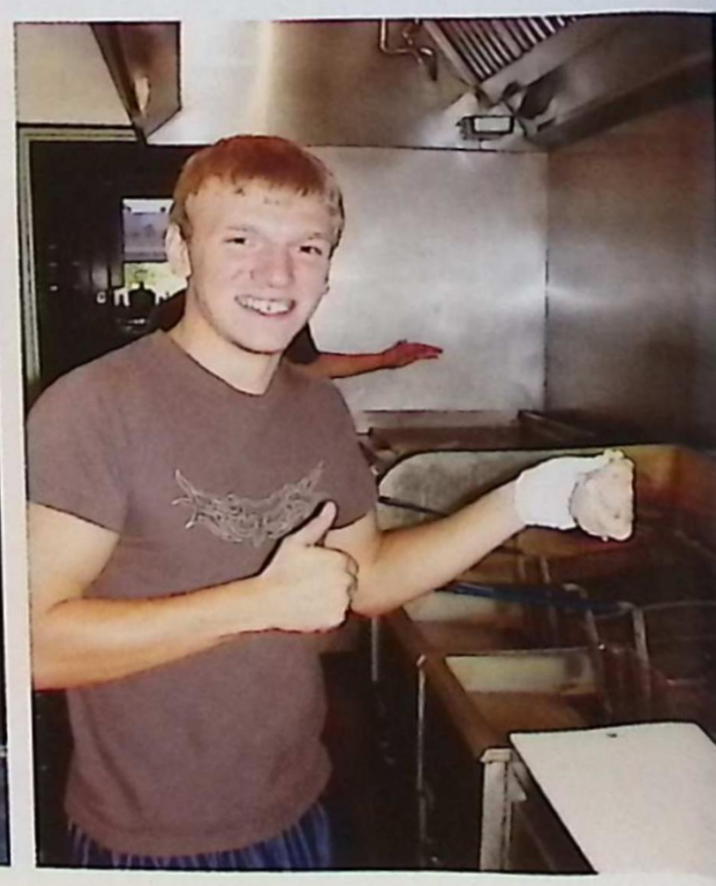
The Voyageur motto is "always keep things clean." Junior, Derrick LaParl washes his hands thoroughly before returning to work in the kitchen.

PIZZA PAIRS

Seniors, Laura Fraschetti and Brittany Burden help one another at the cash register, as they ring up a customer's bill.

FABULOUS FISH

Giving a thumbs up near the grill, senior, Paul Tennant takes some time to show us how to correctly cut a fish.



BACK TO SCHOOL

Fresh starts and new beginnings. . .

A new school year means new school supplies, new clothes, and a whole new attitude. Stops at Wal-Mart, Meijer, Staples and CVS are crucial to making the 2008-2009 year a success. Being prepared for the first day of school is a must! Trying on clothes for the new season ahead is a big part of back to school preparation. With a new wardrobe comes a new hair style to bounce back into the school year. Seniors, Juniors and sophomores each have had their day at Freshmen Orientation. The class of 2012 had the pleasure of listening to a motivational speaker, Andy Thibodeau, from Canada. His message was intended to motivate students to be more involved in student activities, such as Student Council or sports. The class of 2012 will start the new year with general knowledge of our school and what to expect throughout their four years here.

SCHEDULE TIME

In the high school cafeteria Student Council members pass out folders to each individual freshmen in order to prepare them for their first year of high school.

HOP 'TIL YOU DROP

Planning for upcoming holiday events, seniors, Tabatha Hines and Natalie Russo, pick out accessories for their Halloween costumes.

HOLA

Freshmen Devin Cleland, Teri Ofeno and Sara English participate in a dress rehearsal of the first day of school during Freshman Orientation Day.

THAT WAS EASY

Seniors, Stephanie Killewald, Alyse Meier and Jacklynn Pierik pounced on the opportunity to get a bargain deal on folders at Staples.

As the leaves change colors on the trees, so do the activities of SCHS students. Fall is a time for relaxing, apple picking, drinking cider, hayrides, and waiting for the first snowfall. Along with all of these activities, the students at St. Clair High School have many other things to keep them busy. Some of the events that go on during the fall are: the Homecoming dance, National Honor Societys Rake n Run and their annual Haunted House, the Dodgeball Tournament, and this year, a Presidential Mock Election.

FALL 2008

Along with all of these activities, students can also attend, or participate in, a variety of sporting events. Arguably one of the most highly attended sporting events by the students is the ever-famous St. Clair vs. Marine City football game. Students had a chance to show their school spirit and enjoy the game against their biggest rival. So, whether you are attending dances, being evolved with one of the many clubs or organizations, participating in, or watching a sporting event; fall is the time for change.

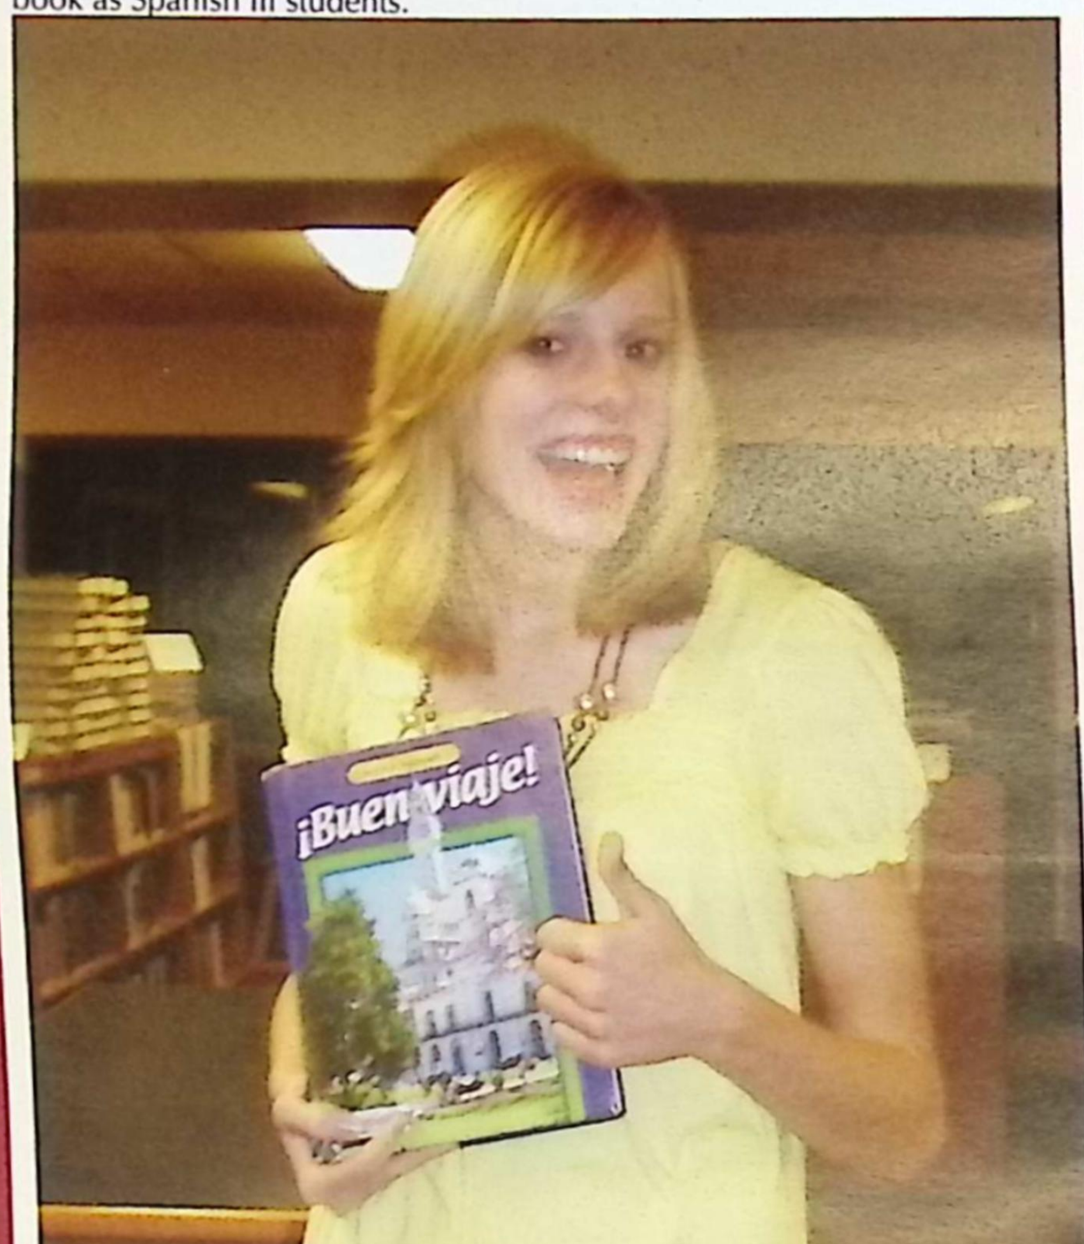
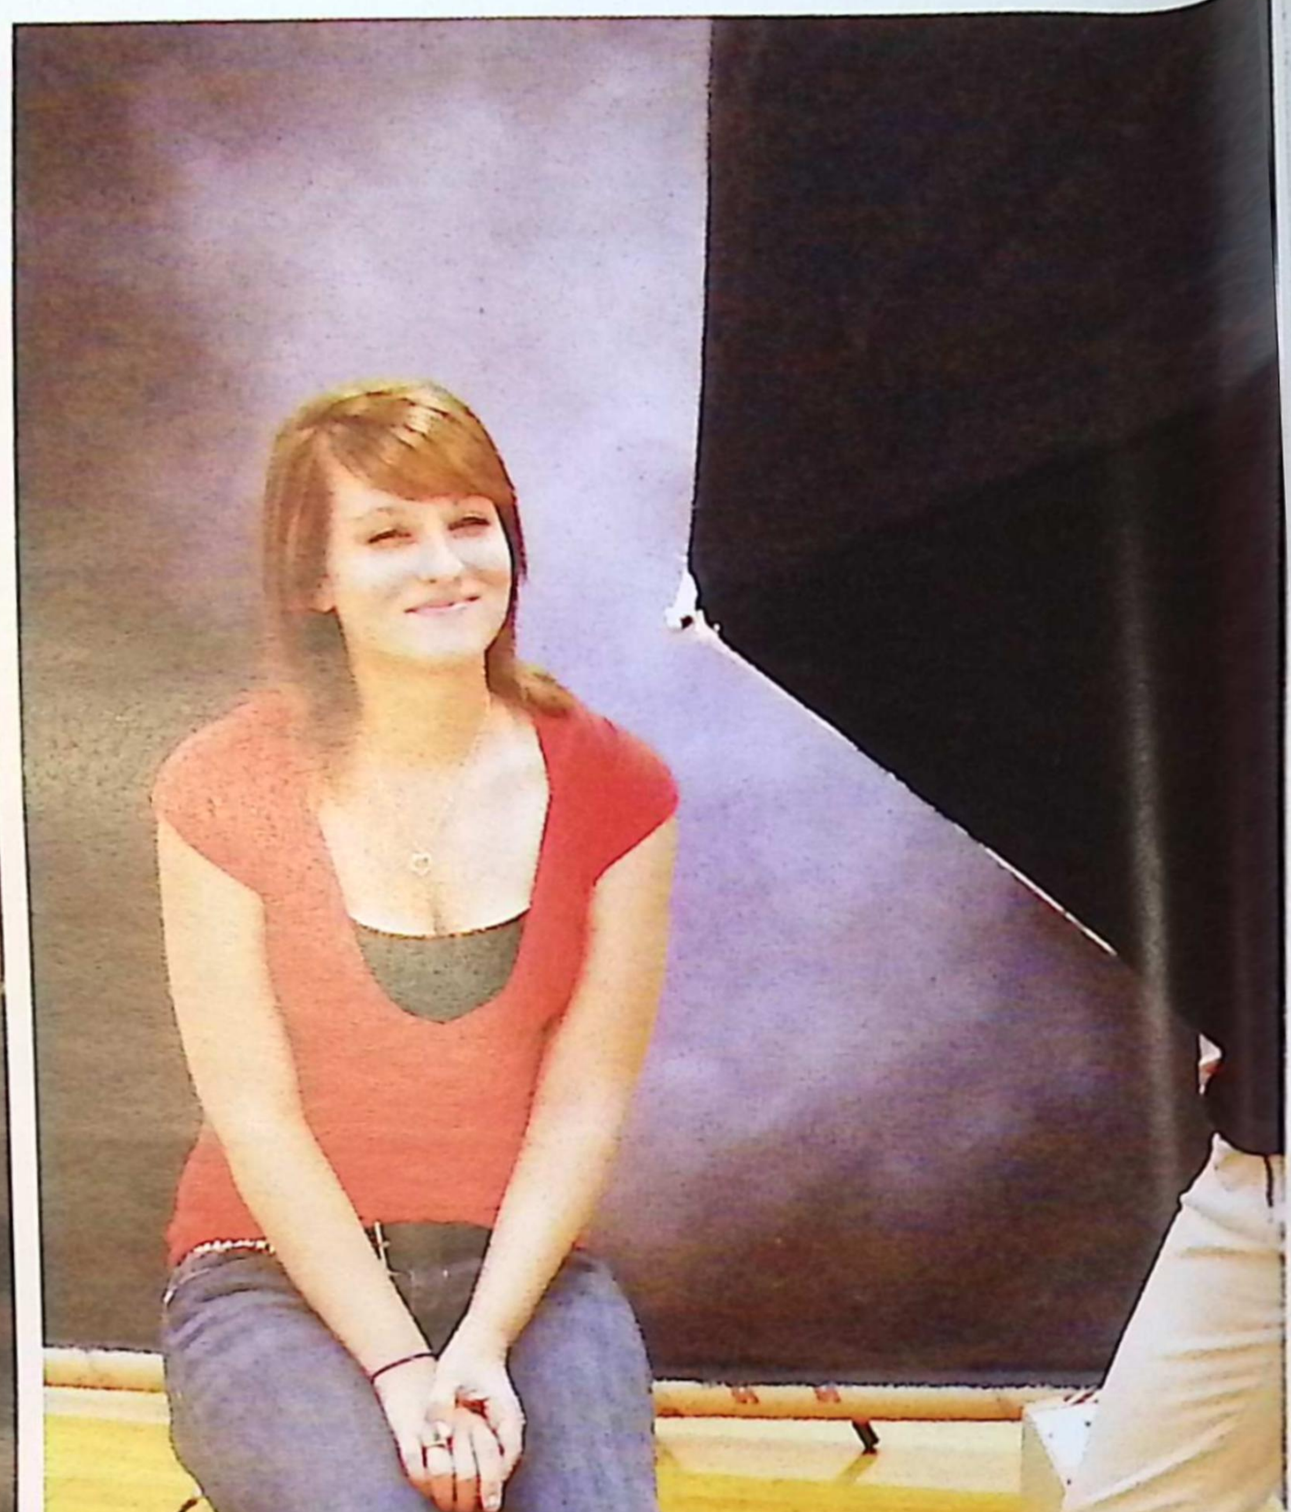
EXCITING ESPANOL

After getting her Spanish IV book, senior, Kelsey Rood can't help but show her excitement! Spanish IV students are introduced to this book as Spanish III students.



SMILE PRETTY

Senior, Amy Allemon does a quick practice smile while the photographer sets up to take a great school picture.



FIRST OF MANY

With the help of Mrs. Butlin, freshman, Eric Hudolin gets his Spanish I textbook through the new bar code system.

NEW SEATS

Freshman, Ashley Schulte-Haslem smiles in excitement as she is placed in her first assigned seat of the school year.

FIRST WEEK OF SCHOOL

It comes only once a year...

Tuesday, September 2nd

Students said good bye to summer as they woke up early to get ready for the first day of school. The hallways were crowded as students rushed from classroom to classroom trying to get to class on time, and avoid being late. Adding to the first day stress... some teachers even gave homework.

Wednesday, September 3rd

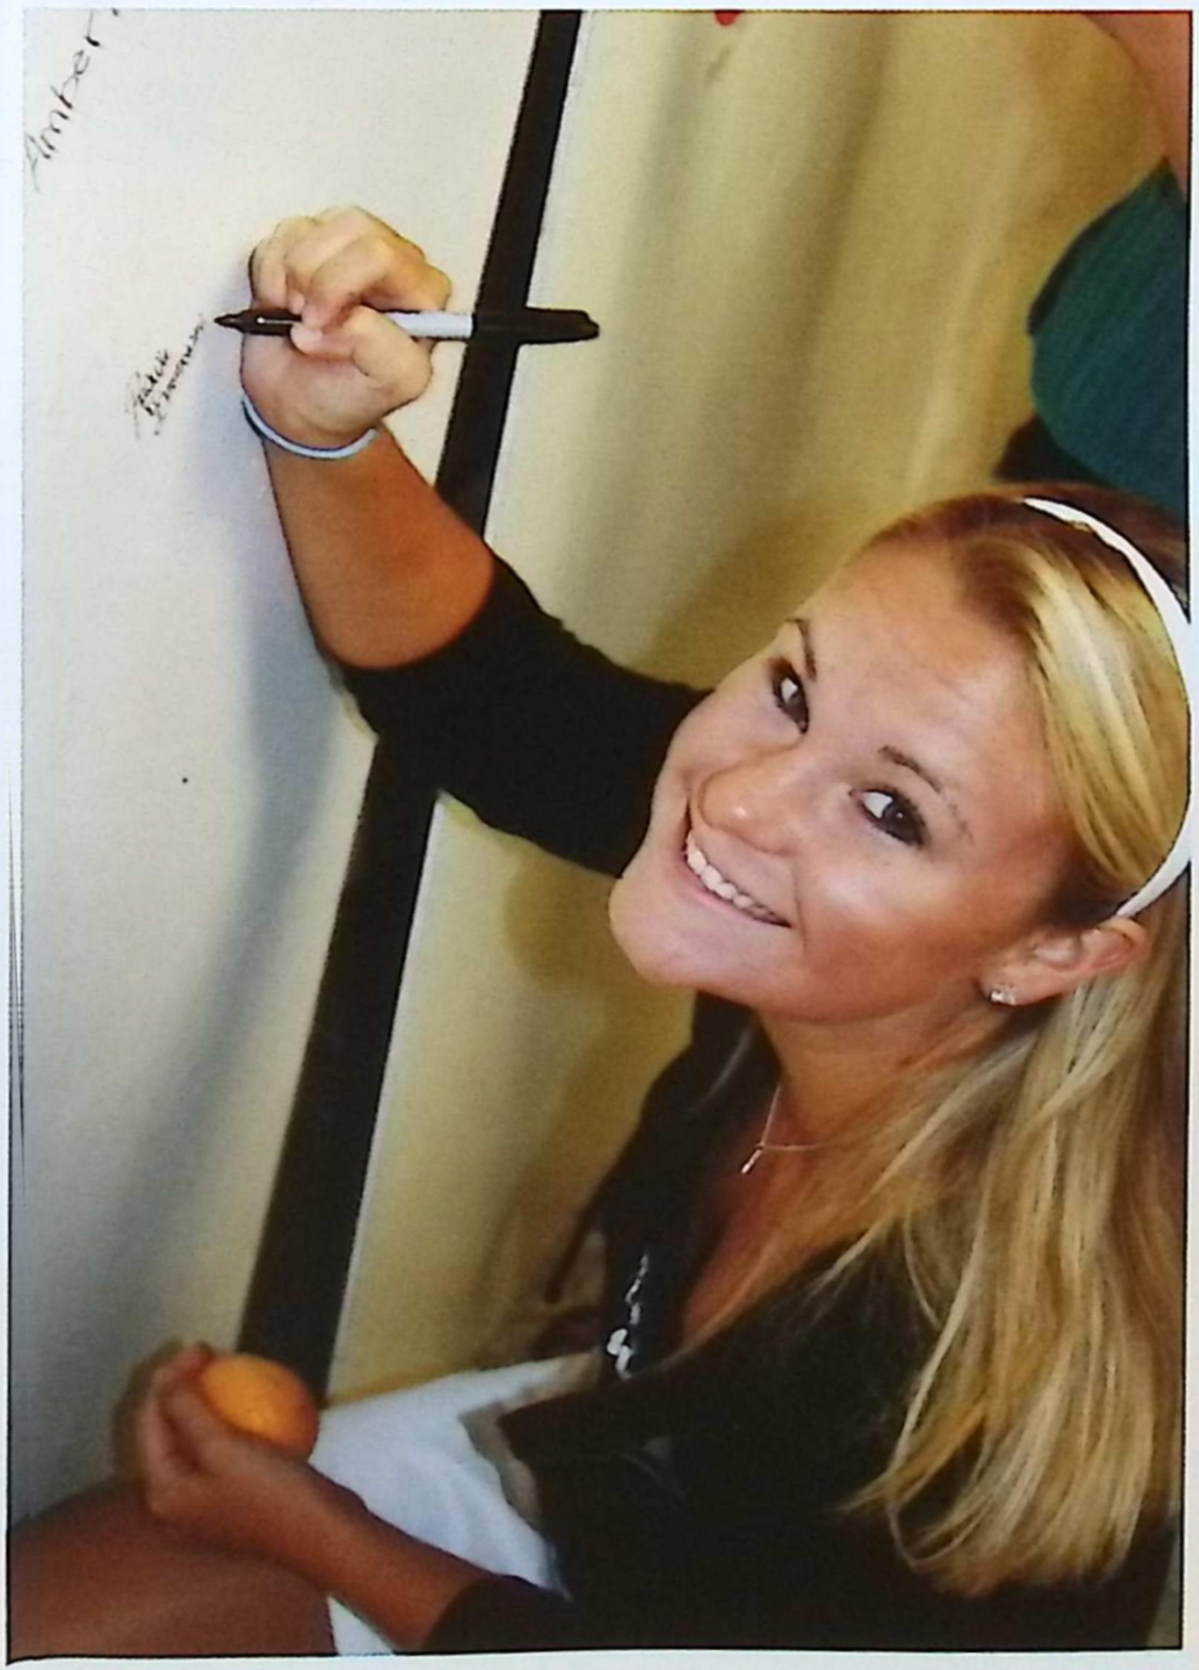
Everyone looked their best on Wednesday waiting to get their school pictures taken. Some kids got in trouble for trying to take goofy pictures and unfortunately had to get retakes. Another new tradition taking place this year was the Senior Breakfast sponsored by the Student Council.

Thursday, September 4th

By Thursday, students started getting back into the swing of school, even if they did not want to. Thursday was the kick off for some Saints sporting events such as: girls swimming, JV football, and volleyball. With a new season ahead... all athletes have high hopes of being successful.

Friday, September 5th

With one week under their belts, many students had other things on their minds. A number of students attended the second varsity football game that was away at Madison High School. Ultimately everyone was faced with the reality that school was now back in session.

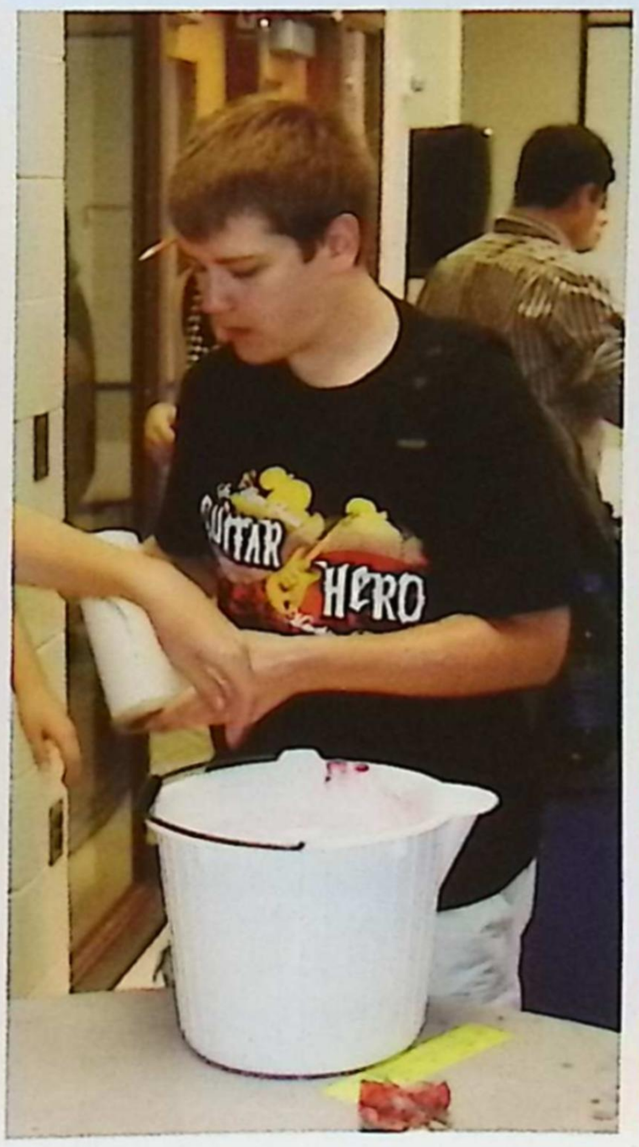


MEMORABLE MARKS

Making her mark, senior, Rachelle Donakowski signs her name on the senior wall, making a promise to herself and her classmates to graduate on time.

HAPPY HANDPRINTS

After signing her name, senior, Mary Witherspoon tries not to smudge the paint after placing her hand under her name on the senior wall.

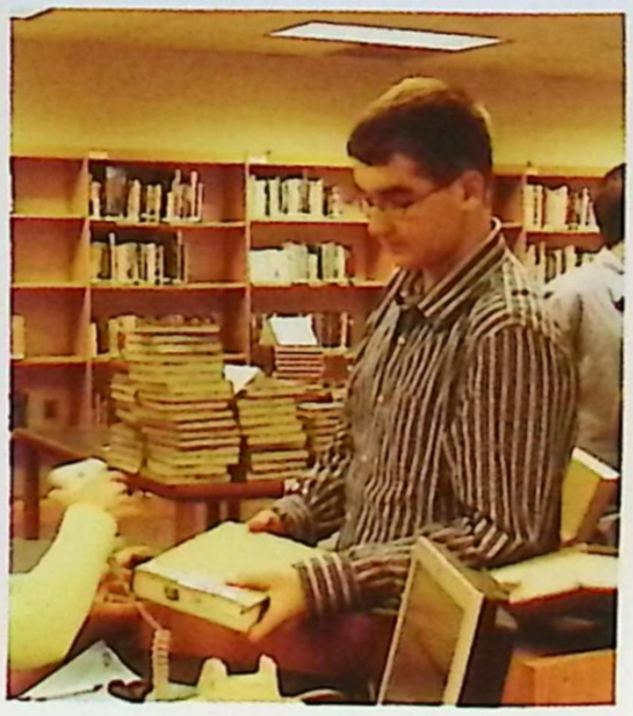


WHAT A MESS!

After placing his hand on the senior wall, Zach Parkhurst washes his hands in the soapy water buckets, trying to remove any extra paint.

BLAST FROM THE PAST

After searching and finally finding the World History books, sophomore, Charlie Hicks gets his book checked out from the Media Center.



THEATRE TROUPE

The St. Clair Theatre Troupe has been around for many years. Within these years, there have been many different kinds of plays performed. Despite yearly changes, the Theatre Troupe has a few traditions that are always in effect. Before every play, all the cast members get in a circle, and everyone puts their right arm over their left arm, and grabs their neighbor's hand. The cast then "passes the squeeze" around the circle. After they have finished the squeezing ritual, each member of the cast recites their favorite line from the entire play. These lines range from funny to insightful, and can be said by any cast member. Once everyone has said a line, they all wish each other luck by saying, "Break a leg!" The Theatre Troupe then performs their play. This talented group of actors has done an amazing job presenting their plays; especially with their recent performance of "Our Town".

Haunted House

Vice President Joseph Kulczewski shares his opinion with us about the NHS Haunted House. "Mr. Cedar told me it was the best he had seen in years, and I have never doubted the Mayor before." This year's haunted event was very spooky and energetic. The theme was a haunted day spa, with the catch phrase being *Dead-End Day Spa*. The maze started out with a reception, area, followed by a hair salon, and after that a manicure/pedicure room. The guests were then treated to a dining area which eventually led to the barbershop, and the employee break room being the final step in the maze. Following the maze was the game room, where refreshments and light music were provided for the children. This scary maze was a great hit, and was very entertaining for all.

"It was a good idea to have the seniors come together as a class early in the year. It allows us to leave our mark here in SCHS."

-M. Dombek '09

-E. Wayne '09

"It was a good bonding experience for the seniors, and I loved Paul Gaedke's baby foot print."

Homecoming Banners

STUDENT COUNCIL

This year has already been filled with new changes throughout the student body. One major change has been the transfer from floats to banners. Each grade had a 7' x 10' canvas that had to be decorated, painted, and designed to match the Homecoming theme: New York City. The banner also had to include the Homecoming football game's opponent, Warren Woods Tower. Each class decided to paint their banners with vibrant landmarks of NYC. The seniors chose to view the night time and day time view of NYC's streets, while the Juniors went with Lady Liberty. The sophomores had the Empire State Building, and the freshmen had the Big Apple. The winner of the competition between classes, for the best banner, was the Junior class. Floats have been a great success in the past, but now the banners will be the success of the future.

YEARBOOK

The chaos that the yearbook staff faces at St. Clair High School comes in large quantities, especially when they passed out the 2007-2008 yearbooks. The staff had to pass out almost 600 yearbooks within one day. They had to alphabetize the books prior to passing them out, and had to call hundreds of former seniors to let them know the books were now available. On top of all of the confusion, multiple freshmen even asked for the books they ordered just a few days before the distribution, which will not be delivered until May of 2009. Many people also had a balance due on their books, which caused a lot of confusion during the distribution process. Despite all of the uncertainty, the yearbook staff made it through, and were joyful as the 2008 yearbook turned out to be a great success!

MARCHING BAND

Football Games

Q: WHAT IS YOUR FAVORITE SONG TO PLAY?

"Definitely *Final Count*, I used to listen to that song as a little kid at football games and it is the reason I joined band."

-C. Jones '10

"I would have to say *Rock and Roll All Night*. It was the most fun and it got everybody involved!"

-K. Davis '11

"My favorite song to play at football games is *Saints*, because it is great when everybody in the stands claps and sings along."

-K. Bray '10

Competition Festival

Q: WHAT DID YOU THINK OF THE FESTIVAL?

"The bus ride is the best part, feeling the energy from everyone wanting to perform their best and all the fun and singing from everyone aboard."

-B. Andrzejewski '09

"It was disapointing that we got a two, because nobody was really prepared."

-A. Banker '09

From band camp to football games, the St. Clair High School Marching Band does it all. One of the most exciting activities the marching band does is its Lights Out performance. This is a special concert that includes all of the band members, and it takes place at the beginning of the school year. What makes this show unique is the fact that all of the marchers have flashlights taped to their feet, and are marching around in the darkness of night. It is really an amazing performance, and this years theme was Guitar Hero, one of the most popular video games around. If you have not attended one of the Lights Out shows, it should definitely be on your to do list for next year!

Lights Out

Q: WHAT WAS YOUR FAVORITE PART OF THE LIGHTS OUT PERFORMANCE?

"My favorite part of the performance was dancing, it was a lot of fun."

-J. Lynch '10

"I think my favorite part was performing on the field and hearing the crowd cheer after each song."

-L. Dombek '12

"All the people that came to see it. They were pumped up for the band! It was awesome!"

GSA Bake Sale

At the annual Powder Puff game, the Gay-Straight Alliance group was one of the many organizations selling food to raise money for their cause, and to provide the audience with some tasty snacks. The GSA made some delicious cupcakes as well as cookies and other sweet treats. Before the actual bake sale, sophomore, Margaret Woodard and Junior, Brianna Price stir up some scrumptious cookies that were soon to become very popular. While Brianna and Margaret were finishing up their cookies, senior, Gail Faustyn shows off some of the rainbow colored cupcakes she just baked and frosted. The bake sale ended up being a huge success and many people enjoyed the homemade food to chow down on while watching the game.

CLUB TRUTH

Club Truth is open to any student willing to devote a portion of their time to prayer and Bible study. This organization is accepting and very understanding, and is a great opportunity for students who would like to open up to peers and others who share a common faith.

CHOIR

Stage-Fright

The choir, which is made up of SCHS students, performs at many different events. However, it can be challenging to some to get up in front of everyone. One way that freshman, Ashley Shulte calms the jitters is to pick a spot on the back wall and keep her eyes on it. Ashley says, "You dont see everybody in the crowd watching you, and it helps me to stay calm." This sounds like an excellent idea and it can be helpful to any person with stage-fright.

NATURAL HELPERS

Natural Helpers is a very important organization here at SCHS. They take part in events that are geared toward helping the teenagers in our community get the advice they need from peers that they trust. However, one of their major goals this year was to inspire people to be more outgoing towards others. In order to achieve this, they sponsored an event known as"Mix It Up Day", which encourages students to get to know each other better. Whether it is sitting with a new group of friends at lunch or smiling at someone new in the hallway, "Mix It up Day" is a great way to help the students to become closer to each other!

The smell of fresh bakes cookies fills the hallways, as students clutter the sophomore hallway waiting in line for these tasty treats. This is an everyday occurrence at the Student Store. The store is sponsored by the Business Professionals of America, an organization at our school. There are a variety of items being sold each day, including candy and Saints apparel. The majority of students especially enjoy the hot, melt-in-your-mouth cookies. Some of the cookies served include sugar, chocolate chip, and double chocolate chip. So, whether youre looking for a quick snack or some new digs, the Student Store, at SCHS, is where its at.

Q: WHAT DO YOU LOVE ABOUT THE STUDENT STORE?

"I love the cookies- they are delicious, and the whole hallway smells good."
-K. Richards '12

"I like the cookies that they make."
-C. Schwelhofer '11

"I love that they are open in the middle of the day, so that if I'm really hungry I can just grab something and go to class."
-A. Chitwood '10

"I'm a member of BPA so I like to get out of class early to make the cookies, because I get time to finish my homework and eat some cookies."

-M. Burkart '10

-M. Kuchta '09

SAINTS SPIRIT

The junior and senior boy cheerleaders come together to make a red and blue Saints spirited pyramid. Junior, Matt Redmond shows off his gymnast skills by doing flips, splits, and chants.

GET SOME

Right before the kick off, the seniors run through their 'Get Some' banner to pump up for the big game. Their cheers and grins bring appulause from the bleachers.

HOMECOMING SPIRIT WEEK

MONDAY

New York Food Day

To kick off this year's Homecoming spirit week, we had New York Food Day. Students were told to wear an apron or bring a cooking utensil with them to school. Since New York is famous for its hot dog vendors, at lunch the four classes battled it out in a hot dog eating contest. In today's spirit hour, everyone worked together to make a body sculpture of The Big Apple.

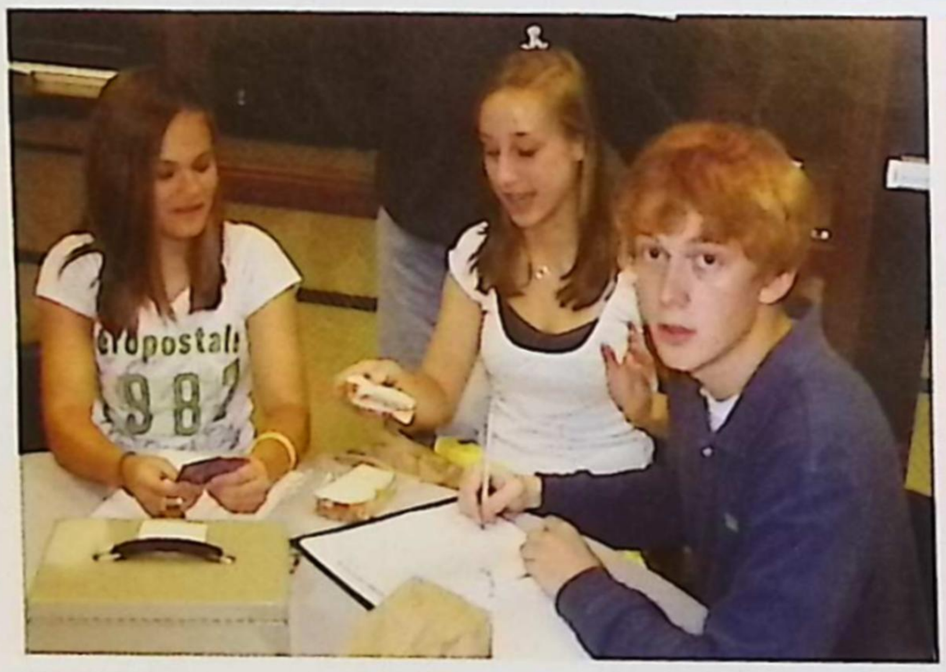
"My favorite part of this year's spirit week was the days that everyone participated. Seeing the different ideas and outfits people came up with made things much more fun!"

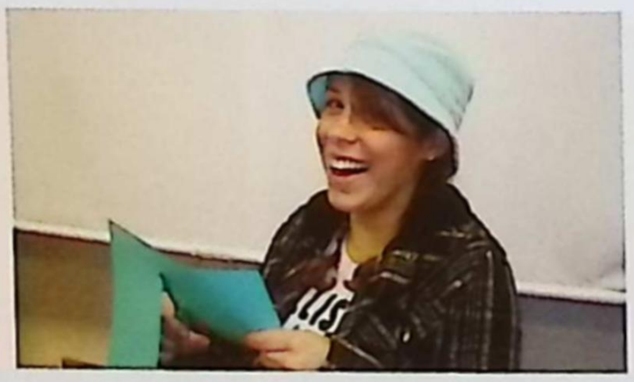
-P. Hermesmeyer '10

"I loved spirit week because I could dress differently than I would on a normal school day. Everyone dressed up, so I did not feel weird about looking crazy!"

-H. Grelg '09

TUESDAY





WEDNESDAY

New York Fashion Day

This was New York Fashion day. Students were told to dress crazy, mismatched, and to do their hair as wacky as possible. At lunch the classes did a runway walk-off, where they showed off their wacky clothes and hair as they strutted their stuff for spirit points. In today's spirit hour the students had to make an Empire State Building body sculpture.

New York Sports Day

Next was New York Sports Day. Everyone who wore New York Sports memorabilia or their class shirts received spirit points. At lunch, all classes competed for the win in a marshmallow throwing contest, where each contestant had to throw a mini marshmallow at a target that was six feet away. While in spirit hour, students competed in making a body sculpture of The Brooklyn Bridge.

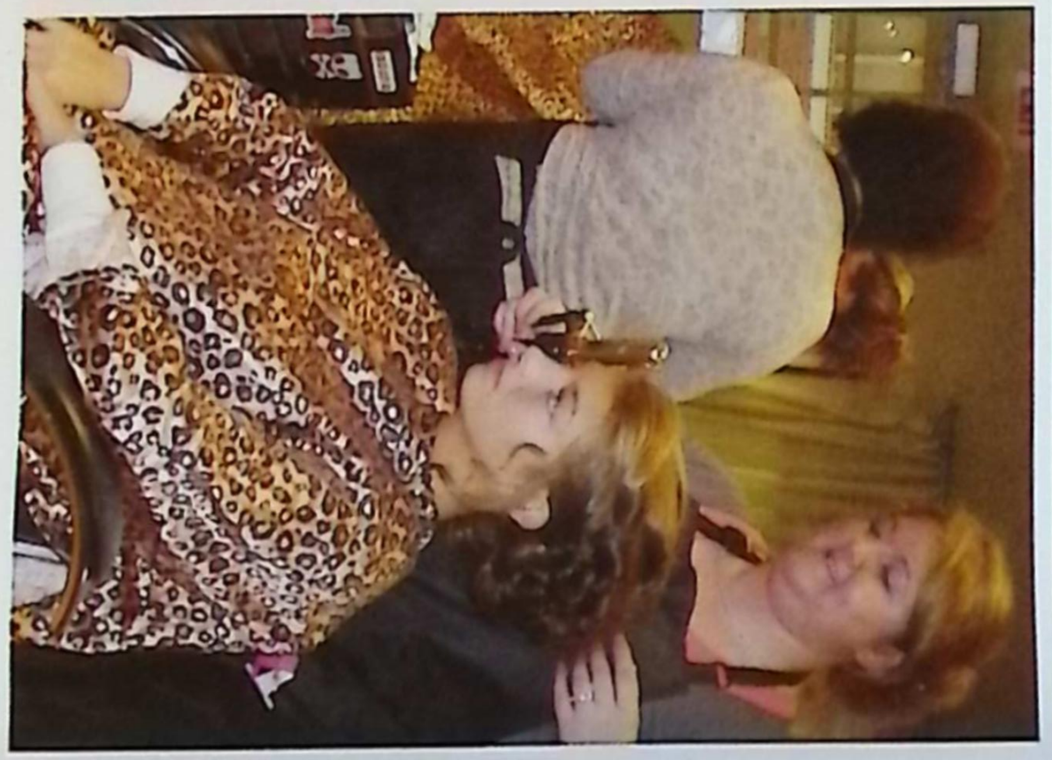
HOMECOMING SPIRIT WEEK

SATURDAY

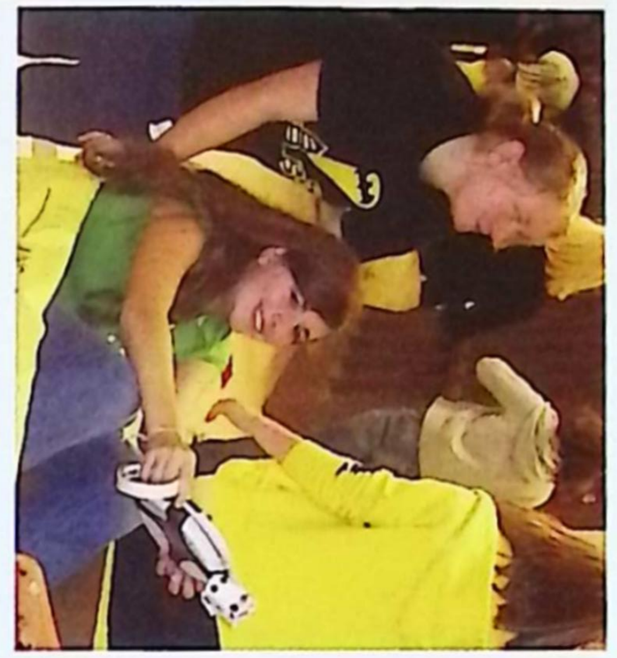


FRIDAY

Red & Blue Day

It is tradition to have a Red and Blue Day at SCHS, so of course the day of the Homecoming game would be perfect. Students showed up in all kinds of crazy outfits; all involving the colors red and blue. During lunch, students were given permission to decorate the bleachers for their grades. Fifth and sixth hours were shortened to make room for our annual pep assembly. From putting on clothes the fastest, to having a human taxi race, the events were successful in getting the student body pumped up for the game. Right after school, was the Homecoming parade. Over 40 different organizations and sports teams lined up to march. Directly following the parade was the community rally, which this year was hosted at the East China Stadium. Here, students could make posters, t-shirts, and eat; all while listening to "Better Off Famous". The game followed the Rally where many students were excited to see if the Saints could beat Warren Woods Tower. The Freshman Band led us through halftime, and our Homecoming King and Queen were finally announced. After this, The Saints led us to a 14 to 6 victory.

THURSDAY



Broadway Day

No one was to dress up this day, but as everyone walked through the doors to SCHS they were given a name tag of a character in either a musical or a play. Throughout the day the different shows were called, and if you were from that show, you won a spirit prize. During lunch, only the bravest went up to belt out their favorite tune in a singing competition. During spirit hour, the body sculpture followed the senior's theme of a clock, which directly followed the senior quote, "the city that never sleeps".

Dance The Night Away

The members of Student Council were at the school bright and early to decorate for the evening's dance. They spent approximately 6 hours painting, cutting, and hanging decorations; all while putting on the finishing touches to make the night seem magical. Once the decorations were set, girls flooded local salons to get their hair perfectly styled. After all the preparation was done, students headed to many different restaurants in the area. Next, students gathered to take pictures by the boardwalk. Following this, students headed to the school where they danced the night away.

We love them all, but only two could win.

ABOVE: St. Clair's Homecoming King and Queen, Charlie Defever and Alicia Fowler.

MEET THE KING AND QUEEN

[KING, Charlie Defever] The students at St. Clair High School may know him as the quarterback on the varsity football team, but Charlie does much more than toss a ball around. Aside from playing football, Charlie is a pitcher on the baseball team, and is on the ping-pong team. Not only does Charlie play sports, he is also a member of the Saints Round Table. During what little free time he has, Charlie likes to relax on the river, read, or play sports with his friends. When Charlie is not at school, or at home, chances are he is at the Tin Fish, where he works. Charlie is not sure what plans the future holds for him, but right now he is planning to enter the foreign exchange program, to study in France next year.

[QUEEN, Alicia Fowler] Aside from being very well known at the high school, Alicia is a very complex person. She runs on the varsity cross country team, and is a starter back at center defense on the varsity soccer team. Not only is Alicia involved in sports, but she is also a member of Student Council, National Honor Society and is a member of the Marching Saints! When she is not busy with extracurricular activities, Alicia spends her time working at Sue's Coffee House, or lounging around with friends. Alicia is not sure exactly where she will attend college next fall, but wherever she goes, Alicia plans on continuing her cross country career.

HOMECOMING DANCE

Bringing About A Change

Each year, the student body looks forward to Homecoming; a place where they can get all dressed up in their fabulous attire, gather at the boardwalk to take pictures, and have a wonderful time. This year's theme was New York City and the gymnasium was decorated with colorful lights, streamers and banners; bringing the true New York City feeling to St. Clair High School. Famous designer labels and names of Broadway musical performances were also displayed throughout the gym, which brought the theme together.

The Student Council went out on a limb this year and made a play list of requested songs on an iPod. The reason they made this drastic change was because there were some complaints in the past about the DJ not playing songs desired by the students. Even though there were some technical difficulties in the new system, Homecoming was again a success. The attendees had a great night, full of many memories to talk about for years to come. For pulling it all together, hats off to the Student Council for trying something new.

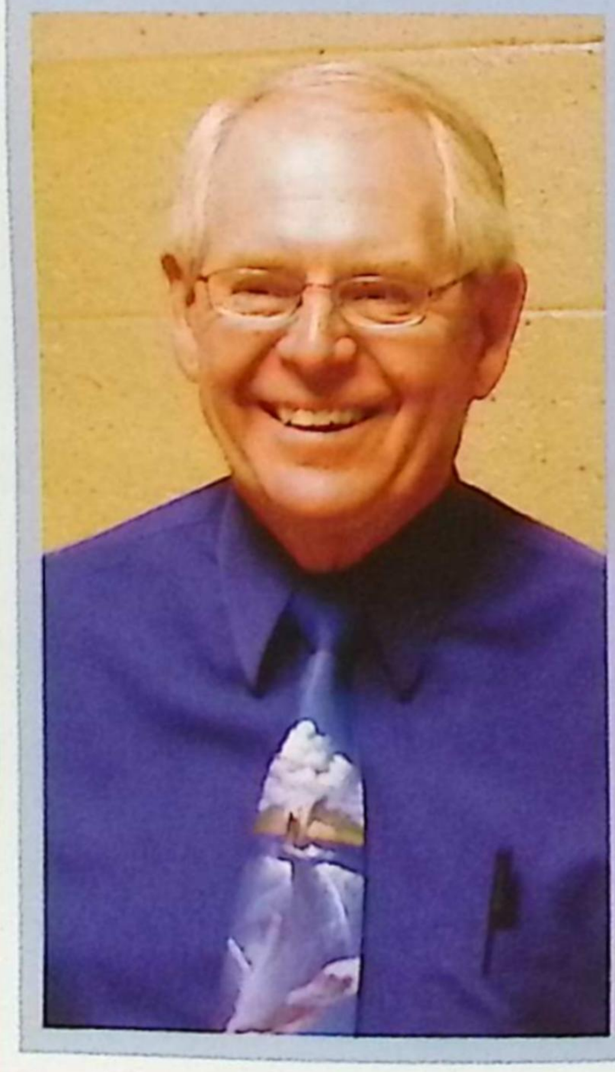
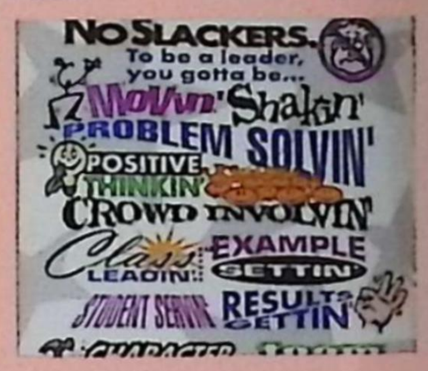
Subs: why we love it when our teachers are sick!

Everyday, at least one teacher is gone and replaced by a substitute. It is no secret that the students of SCHS have their preferences to which sub. they would like to have that day. Whether its buying candy from Bubba, or learning movie quotes from Mr. Roy, it is never a dull moment when our teachers are out. Instead of wishing for someone who is quallfied to teach that subject, students wish for the one who is the most fun, or the one who will let them do as they please. Each morning when students walk into their classrooms only to discover that they have a sub., they rejoice. From joking with Coach White, learning about Mals long life or even talking all hour to Mrs. Roggenbuck, these people have become more than just substitutes to the students at SCHS. One thing is for sure; when teachers are gone, their students still find ways to cope with the disappointment.

By: Amy Allemon





GARFIELD, HISTORY, COLLEGE TEAMS, FAMOUS QUOTES & MORE

Typically students spend 183 days, or better yet 1098 hours per year in school classrooms. The first thing that catches a students eye is the decorative posters that each teacher displays in their room. For example Mrs. Westrick dons a movie wall, and the dominant poster is of the movie, *The Notebook*.

I conducted an experiment to see what the student bodys ideas of these posters were and what were some of their favorites. In Mrs. Clyne's classroom, her French IV and III classes helped me get to the bottom of this mystery. Mrs. Clynes top three winners were the "Humor Me" poster of the cat, the "Everyone Smiles In the Same Language" and the "World Peace" poster. Sam Zohr voted for the "Everyone Smiles" poster because "...It shows that no matter what language you speak, a smile can bring you together." Megan Nledzwieckl told me, "The cat poster above Mrs. Clyne's desk says humor me, and one day Mrs. Clyne said humor me and pointed to the cat. It was funny because she is not a cat."

The winner of the three was the "World Peace" poster. Kelly Etz chose this poster because she believes that, "It is so important to have world peace in the world, especially now in these difficult times." Another reason her students, Ayesha Ali, Alex Garshott and Charlie Defever chose the "World Peace" poster is because it had a nice design with the different countries' flags on it, making the peace sign. Overall, whether you are in Mr. Fouchey's classroom, that is covered end to end with posters, or you are in Mrs. Eberhard's classroom with lively, eye catching images, the posters always catches your eye.

Virtual Videos

From reconstructive knee surgery to a full body autopsy, sitting through an Anatomy video is a survival of the fittest experience. Students take hours out of their day to gather around the library to watch and take notes on these gruesome images. Starting out with the pre-surgery routines, and working all the way through to the stitches, the bravest students in the front row are stuck in the middle of the action. Whether it was asking questions to the actual doctor or interviewing the nurses, these virtual moments at SCHS are pretty unforgettable.

A Game a Day Keeps the E's Away

Here at SCHS, our dedicated staff is famous for coming up with new and creative ways to help us learn the same old lessons. Whether it is Jeopardy in Mr. Fox's always lively World History class, or an old fashioned round of spoons during one of Mrs. Fiehauer's Spanish II lessons, our teachers are always finding ways to keep us interested. We may be learning about all the battles in World War II, or memorizing hundreds of vocabulary words, but our minds will always be entertained when we are having fun learning. Though, the "good old" note cards may not be booted out anytime soon, students across campus would agree that they would much rather learn through competition and an exciting game rather than cram for hours alone. Here at SCHS we believe that these inventive games play a large part in great memories, and better yet, great lessons that may stick with us for years to come!

Gym Class Heroes

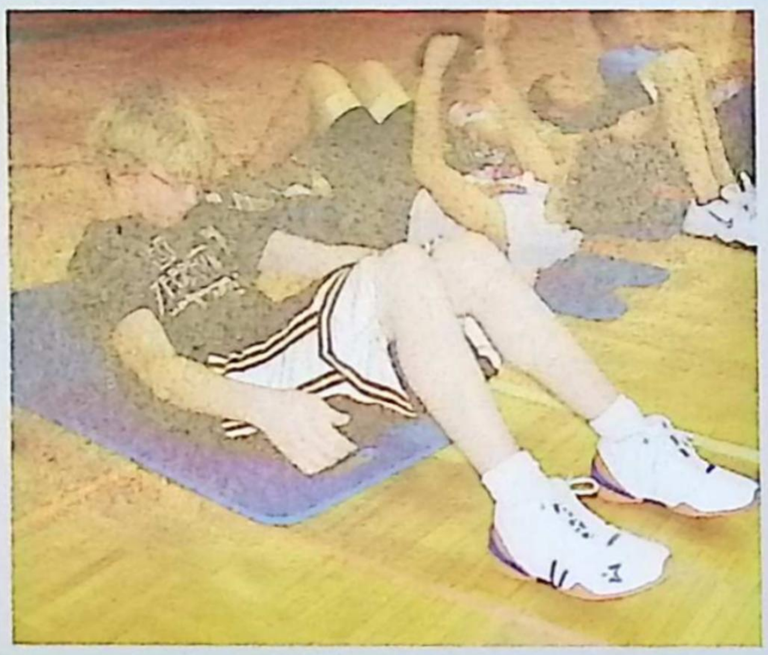
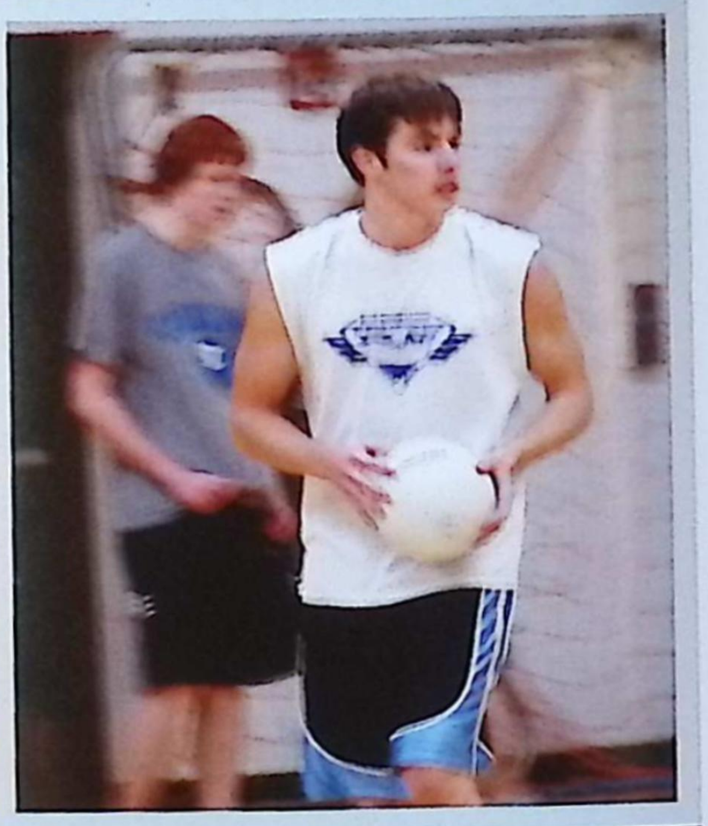
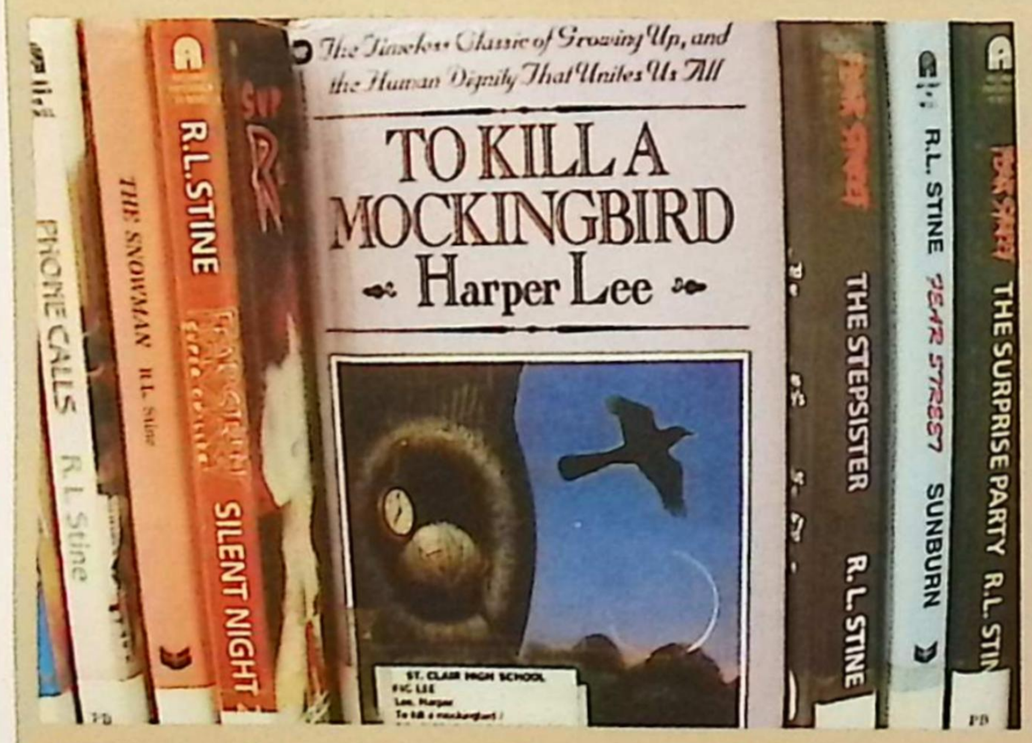
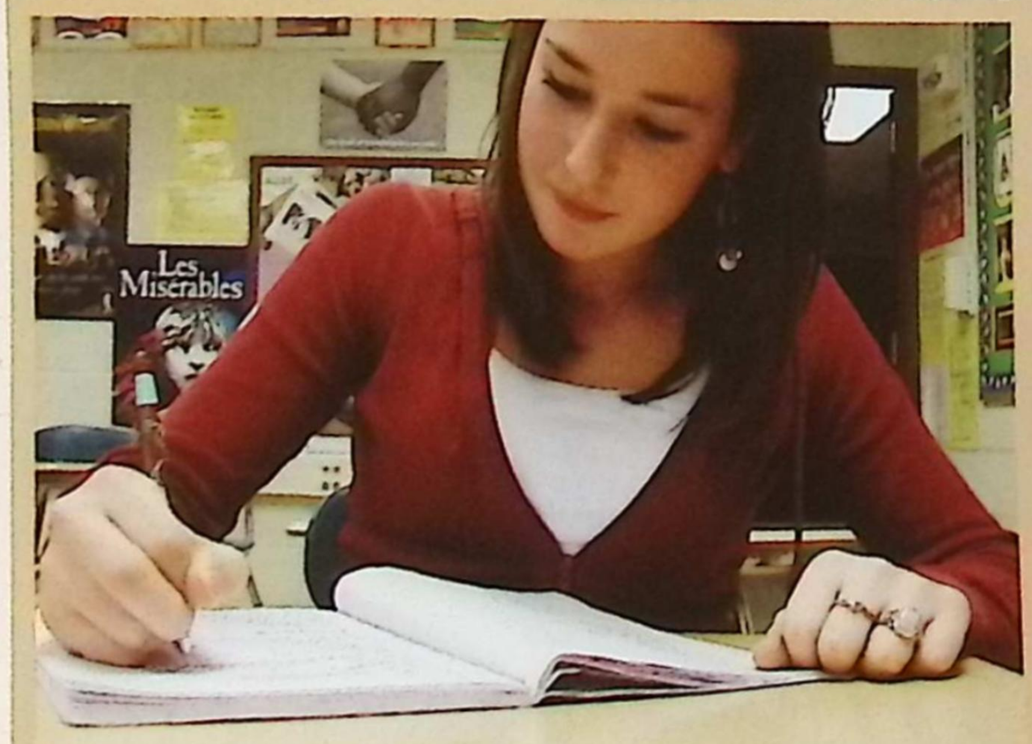
When we hear the term Advanced Weight Training, we all imagine intense and structured workouts. This is an accurate statement, because four days a week it is just that, with bench tests and abdominal workouts students put in a lot of sweat and hard work into the class. During 1st and 6th hour, Mr. McElreath coaches his students on muscle building and endurance. Some of the various tasks that the athletes must perform on a weekly basis to become stronger and to stay in shape are: boxes, cleans, squats, and bicep/ triceps work outs. Half way through the week the students have a well deserved break and they choose to engage in a wild and vicious game of dodgeball. Captains hand pick their teams one by one, and then they battle for the hour.

For the first time ever St. Clair now offers an Advanced Weight Training class for girls. In this class the girls and their teacher, Mrs. Kennedy focus on achieving slimmer figures. During the week the girls participate in workout videos that target, abs, arms, legs, and stretching. They also do cardio workouts in the gym and in the pool. On the occasional free day the girls watch the movie Heavy Weights.









Notes For A Novel Reader

While reading To Kill A Mockingbird, Mrs. Matthys' Language Arts class can constantly be found making character lists. You may be pondering what exactly character lists are... Well, they are simply a list of the characters in the book you are reading. You name the character and then add notes and facts about that person that you have just read or discovered. When done with the book, the notes will be turned in for a grade. If you are not doing character notes for a grade, you might also want to try them on your own and see if it helps you at all. Another thing Mrs. Matthys and her students do in class is go over the chapter they have read the night before. Eventually they add to the notes they have already taken. It helps the students get a better understanding of the plot and the individual characters. Not only do you go over the characters, but it helps you comprehend the story more if you contribute ideas and thoughts during the class discussion. Its also a big relief when you begin to study for a test or quiz and you have the character notes to help you. When you think about it, taking notes like these, and having open discussions, can be beneficial and can help you so much.

Epic English Essays

English is a class that everyone at SCHS must take all four years. In addition to reading stories and discussing them, students must take the time to create pieces of their own. Although the writing assignments range from poems to stories, most students have found that the bulk of their work is writing essays.

Mr. Fouchey is notorious for giving out his (impossibly hard) weekly essay topics. The topics range from anything as simple as "dust", to anything as complex as responding to Ralph Waldo Emerson passages. In his class, the average student will write 35 essays a year on various topics. That means that Mr. Fouchey grades, on average 5,250 essays each year; this also means that he grades nearly twenty essays per day. Although writing an essay sounds rather easy, in fact, it can take hours to produce a solid piece of work, and Mr. Fouchey accepts nothing less than perfect.

While these essays sound nearly impossible, Mr. Fouchey does accept rewrites on most of the essays. Rewrites are the opportunity for the student to actually go back and rewrite an essay for a better grade. Lots of students take advantage of this opportunity, and it can help their grade immensely.

Writing every day in language class can be hard, but here at SCHS, students have learned to adapt. With the help of Mr. Fouchey and his extremely difficult class, students have learned how to better their writing skills.

Extensor Carpi Radialis Longus

Anatomy and Physiology is always a class that attracts students, mainly students who have high hopes of having a medical career in their future. Going into a great deal of detail with all the systems of the body, the Anatomy students get a good feel for what to expect in college. This class is no walk in the park, as each student has to know the parts of the body, by their function and by their correct name. Terms like Sternocleidomastoid, Brachioradalis, Gastrocnemius, and other names that are beyond pronunciation are just a few examples. The topics covered are the skeletal, muscular, respiratory, cardiovascular, nervous, digestive, endocrine, urinary, and the lymphatic systems, as well as the organization of the body and the skin. Throughout the semester, students are assigned to challenging comprehensive coloring activities, which enable them to identify each part of the body. Also, the students take part in dissections ranging from chicken wings to fetal pigs. Even though the dissections bother some, other students take advantage of it as a great way to understand the body throughly. At the conclusion of this course, the Anatomy and Physiology students get the opportunity to observe a real knee surgery and autopsy with the high tech COSI program, allowing the students to interact with the doctors during surgery, and listen to the other schools' questions. Even though there is a lot of hard work involved, this class serves as an "extensor" of students' knowledge.

RED, BLUE & YOU

St. Clair fans remain faithful all season.

GO.FIGHT.WIN!

Fans get on their feet to cheer on the Saints varsity football team at the East China Stadium during an exciting game!

RAIN OR SHINE

Always proving their loyalty to the team were the Marching Saints. Rain or shine they always put on a show at halftime.

Saint Clair Students Make a Splash!

Students at SCHS definitely proved their dedication to our football team when, although it was pouring outside and the parking lot was flooded, many of us still showed up to cheer the team on! Along with loyal fans, our cheerleaders and our incredible band also turned out to support the Saints. The band, which wore ponchos, and had water dripping from their instruments, proved their loyalty to the team by sticking it out for nearly the entire game. With fans so dedicated it is not hard to believe that all three of our football teams ended their seasons with a bang!

Is Homecoming better with a date or without?

"I would say with someone because then you can dance with them and always have someone to dance with."
-J. McDonald '11

"I would say without because then you can dance with whoever you want without anyone getting mad."
-A. Schantz '11

"I'd say with someone because it makes it more of a "special" dance rather than just another school dance."
-D. Askew '11

While enjoying yourself at a varsity football game, what is your favorite cheer to hear?

Powder Puff '08. . . Who were you rooting for?

Powder Puff this year was definitely intense, but who was our student body rooting for? The majority of SCHS students were cheering for our seniors during Powder Puff '08! "I hope the seniors win because it is their last year!" said freshman, Tyler Adams. It seemed many of you agreed! The stands were packed with senior fans! However, the underdog Juniors had their fair share of loyal fans as well, "I want the Juniors to win because I think we should carry on the tradition from last year!" Sophomore, Jessica Wilhelm said. Although the seniors came out on top, both teams put up a fight and should be proud of the fantastic game!

"THE JUSTICE OF OUR ACTIONS IS OF OUR OWN MAKING"

What does this saying mean to you? And how does it pump you up before a game?

JV FOOTBALL

Attitude, Effort, Belief, Family

The JV football team started off their season with four wins in a row. Many team members showed great leadership qualities. This year's team consisted mostly of sophomores, but there were two freshmen that were asked to join the team as well. Donovan Langely a defensive end and Blake Trujillo a wingback, showed their skills throughout the season. When asked about his experience on the JV team, Blake responded, "I really had no idea what to expect. It was different at first playing at a higher level, but after a while it felt completely normal." When Donovan was asked about acceptance to the JV football team, he said, "Everybody on the team treats me like a friend." Both of the freshmen have heard rumors about their chances of being on varsity next year. Donovan even asked coach Mahn about the rumors and he replied, "Yes, but were still not sure." So, with another year of high school football under their belts the JV team is excited about next season.

WATER. . . FINALLY

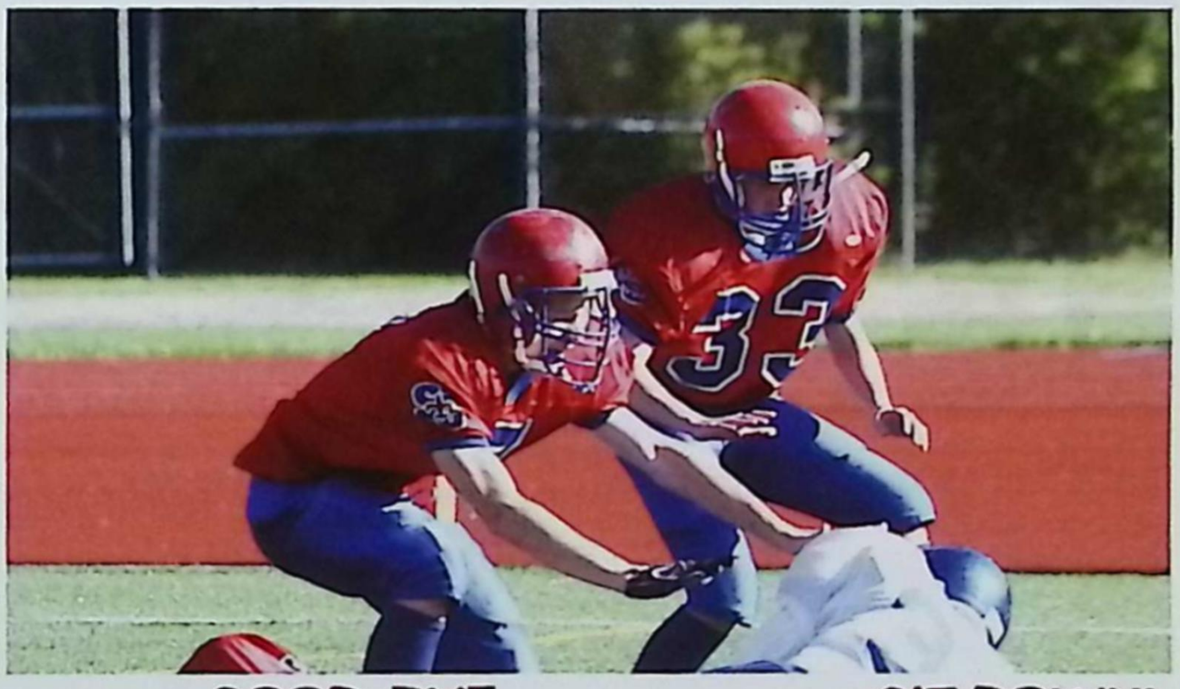
Running back behind his offensive blockers, sophomore quarterback, Calvin Marshall looks for an open wide receiver down field.

FRESHMEN FOOTBALL

The Players of Tomorrow

The freshmen football team had a rocky start to their season, with a tie game, a loss, and a team that cancelled on them. Although disappointed, the team worked hard in practice everyday as if it were a game. The time didn't come to show their skills until game seven against the Clintondale Dragons, which was a close game that came down to exactly the last minute. The final score was 14 to 20, favor of the Dragons. The team showed that their weeks of skill building almost paid off with a win. The coaches were proud of their players, and they showed it by their powerful words after the game. St. Clair football is about attitude, effort, belief, and most important...family. The team stuck together throughout the highs and lows of the season, and kept it all together. If the team ever broke down, there would always be another player there to help. They were more than friends, they were a family.



GOOD-BYE

Breaking off a tackle, Mike Stapleton takes off from behind the offensive line and continues to run the ball down the field for a big gain.

HERE I GO

With no open receivers, Carter Allington decides to take a chance by himself and make a run downfield for a first down against L'Anse Creuse.

VARSITY VOLLEYBALL

Catching Up With Coach Tomlin

From early morning practices to late night rival games, our varsity volleyball team worked hard this year to prove to everyone that they were the team to beat. Losing a tough game to Marysville in the first round of Districts, the girls ended on a pretty good note. So we decided to take some time to ask the one person who knows the girls the best Just how she felt about this year's team. According to Coach Tomlin, "The team made some significant Improvements throughout the year. Most obvious was serving and serve receive. Playing In the MAC Blue was a challenge, but the girls came into every game with the attitude of winning. As a team, they should be very proud of their successes and hold dear the lessons that were learned. It was a long and tough season, but we came back everyday as a team and earned everything we achieved."

SUPPORTING TEAMMATES

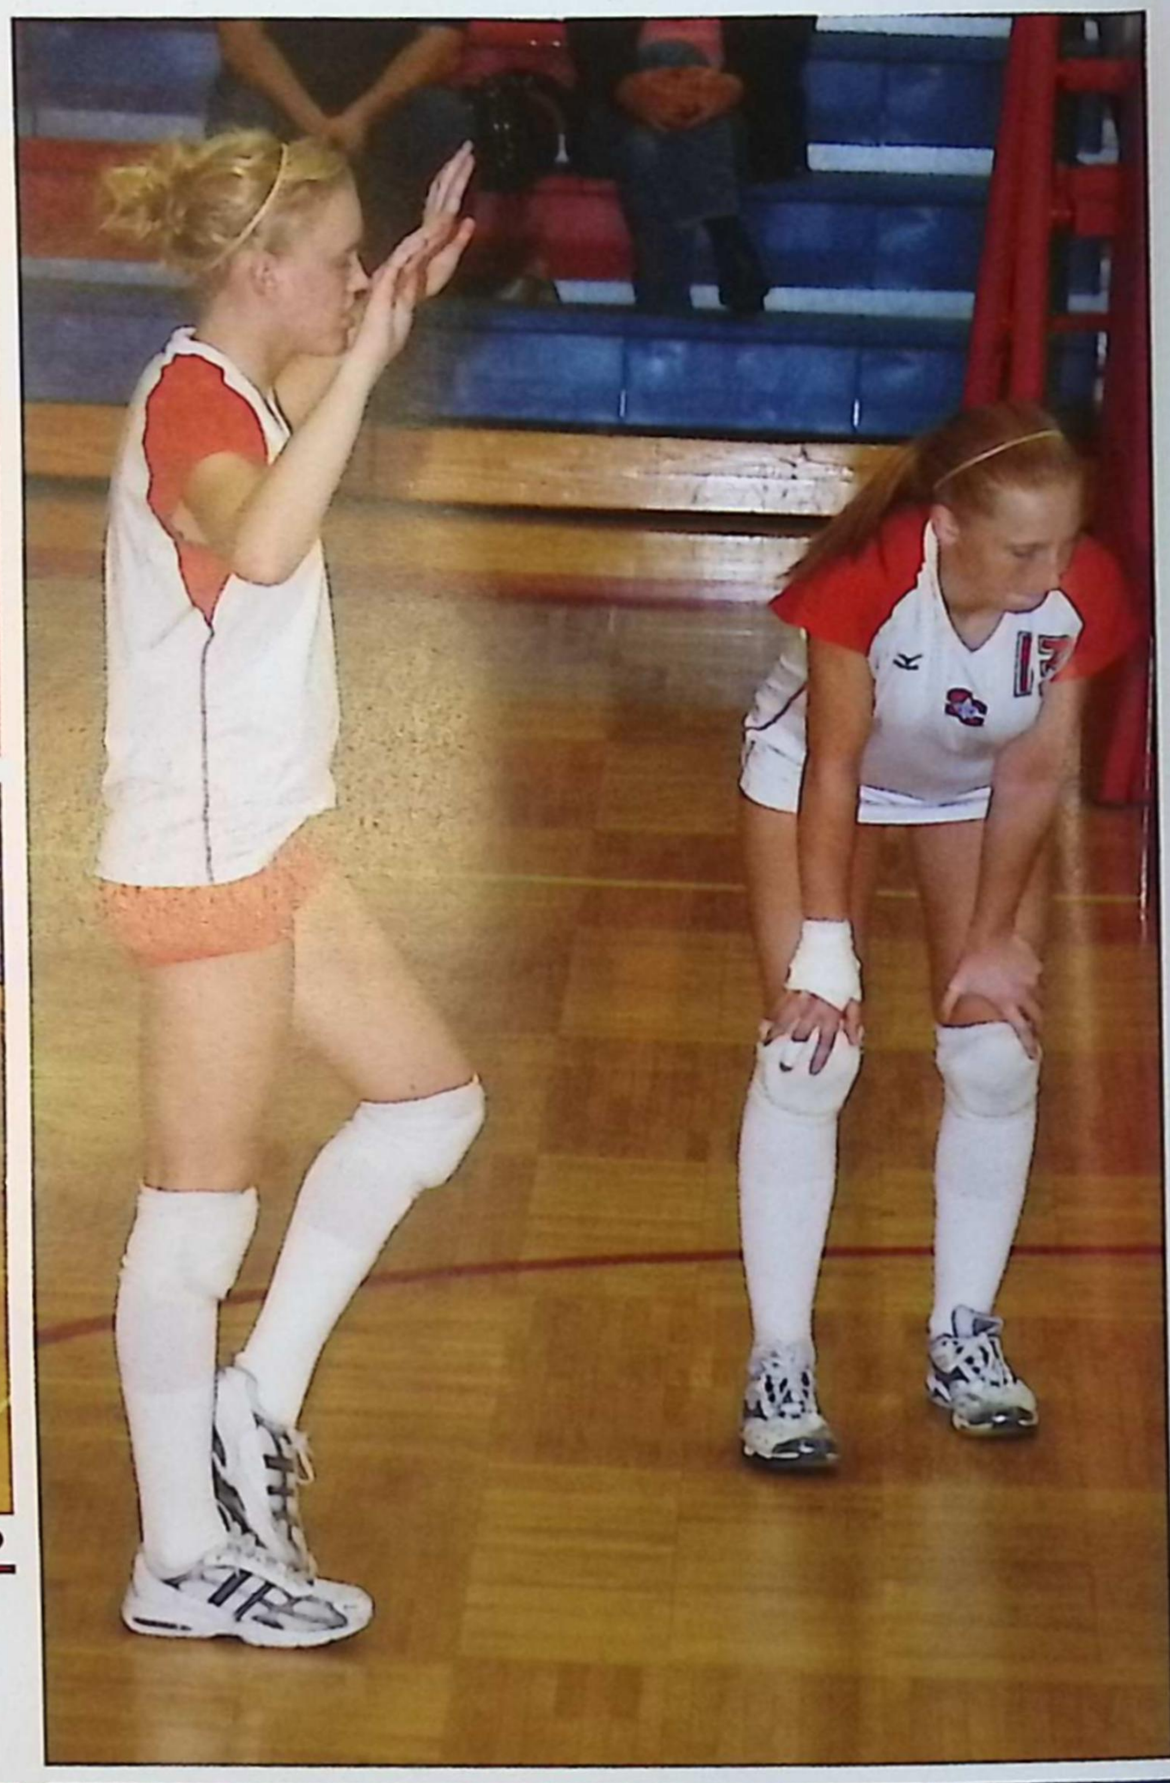
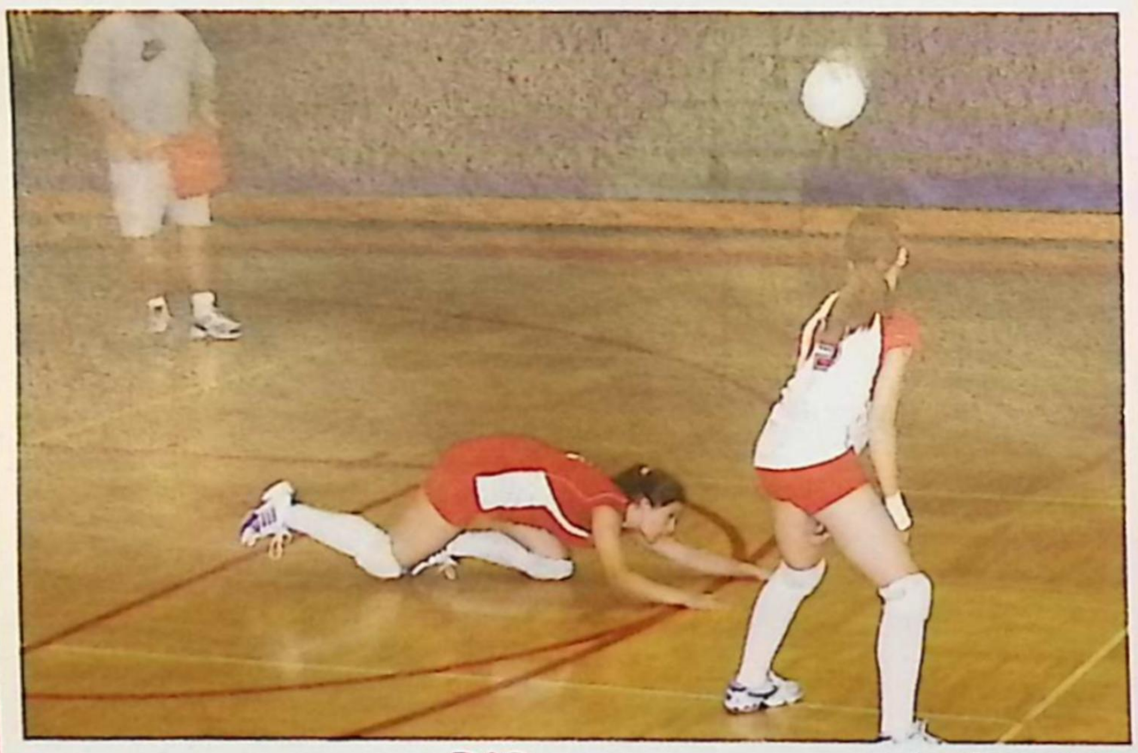
JV VOLLEYBALL

Tearin' Up The Courts

Volleyball would be nothing without line judges. When JV team members become line judges for the varsity team, they do not always experience positive attitudes with the opposing teams. Sophomore, Jenny Eisen said that one of her worst experiences while judging was when, The other coach yelling at me and yelling at the referee to kick me out, and all the girls on the other team were swearing at me! Luckily, she did not end up getting kicked out of the game. One of her teammates, sophomore, Libby Miller was caught off guard while line judging. "It was game point and it all came down to my call. Too bad I was looking in the stands!" Whatever the situation, every JV volleyball player has had a variety of both positive and negative experiences working as an official for home varsity games.





DIG

Sophomore, Mara Ranshaw hits the floor and sacrifices her body to save the team against the opponents' serve as teammate freshman, Taylor Johnson watches.

IN THE AIR

Using her soft hands to handle a serve, sophomore, Libby Miller sets the ball to the setter for a controlled and more accurate pass.

FRESHMEN VOLLEYBALL

Rippin' The Opponents To Shreds

Everything changes with the transition from middle school to high school. From a harder grading scale to more advanced classes, nothing seems the same. However, the biggest difference to most freshmen is the athletic competition. Taylor Elsen, a member of the freshmen volleyball team, thought that the biggest difference was, The coaching, because our coach, April, knew more things than our eighth grade coach did.

Many of her teammates agreed with her, especially Sara English. Sara also thought that, Tryouts taught me a lot, even more than I learned my whole eighth grade year. Megan Agullo, who also played her eighth grade year, summed up the teams freshmen year perfectly, We learned how to work together, and we really became a family. This family of freshmen finished their season with a winning record.

SERVE CITY

I CAN DO THIS

Freshman, Randy Gottler takes a deep breath at the one and a half mile marker, and trudges on through the race.

CROSS COUNTRY

We Got Talent

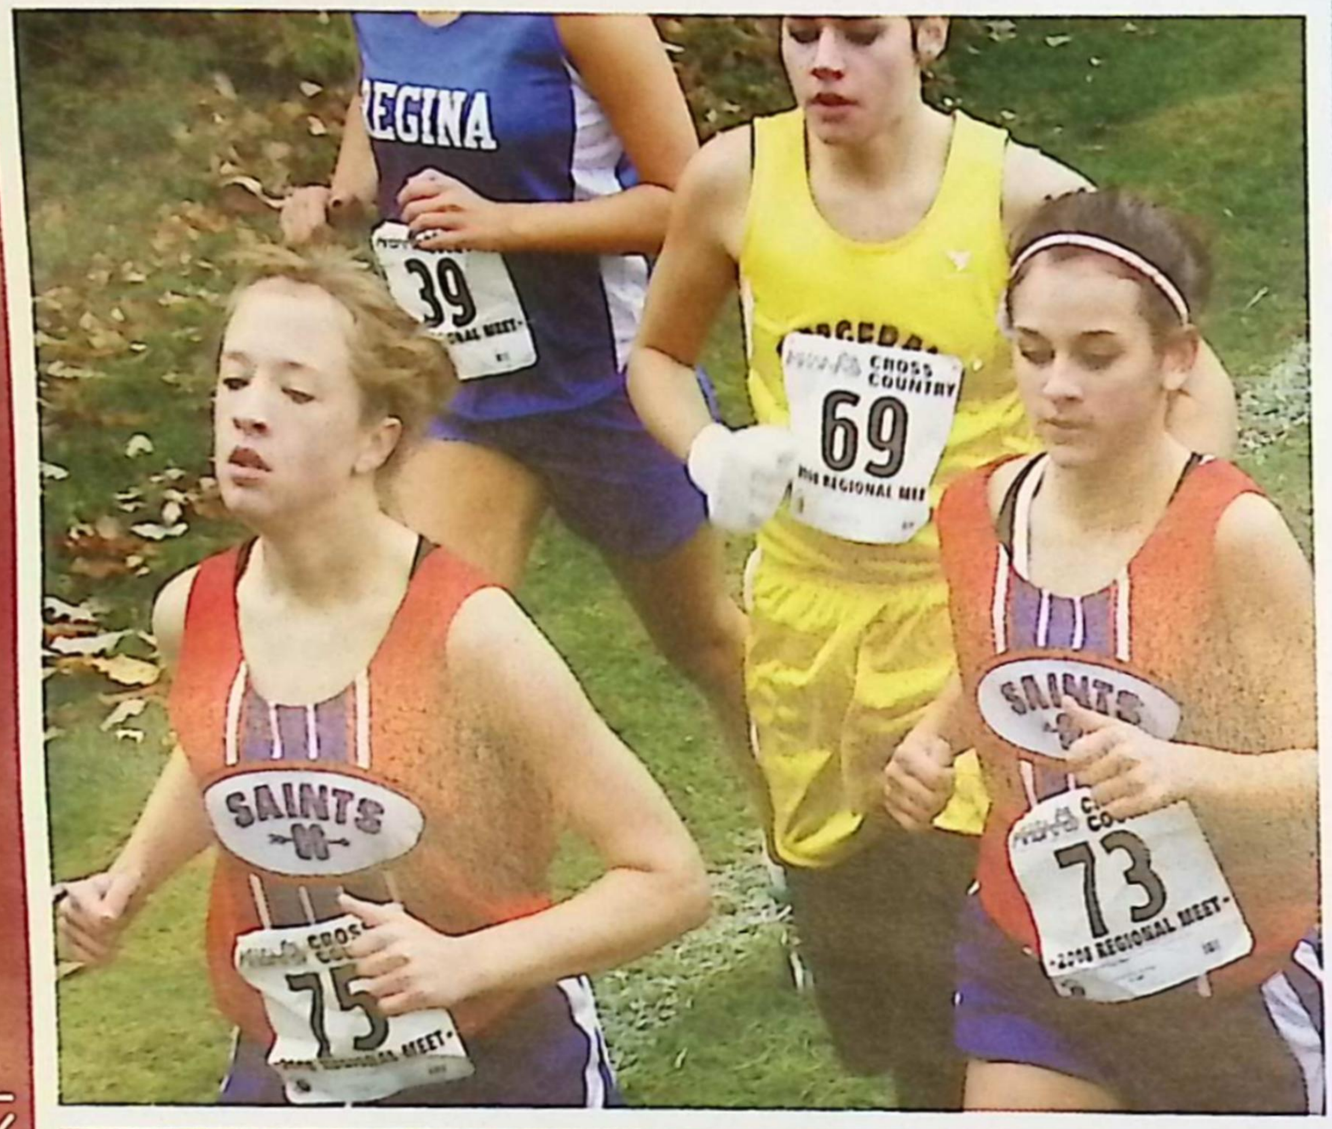
"There is no such thing as luck in cross country; only guts and hard work." According to Coach Jon Davidson, this is what it takes to be a winner in cross country, and they showed it by getting first place in the cross country Regional race. Cross country takes effort and determination. Running over 800 miles in one season is no joke, it's serious. An interview with Jon Davidson shows his beliefs in the fast paced sport.

Q: What are your pre-game rituals before you compete?
A: "We have a 3-mile warm up, just to see the track before we run it, and then we get in a circle and keep it simple."

Along with a great season, they also had an outstanding runner on the team that took them to the top. Junior, Derrick LaParl was the leader of the Saints that took them to new levels. During the season Derrick acquired five titles: MAC White MVP, MAC White 1st Team All-Conference, 1st Team All Region, All-State Champ, and Times Herald Runner of the Year. When asked what Derrick's favorite part about being named Times Herald Runner of the Year, he responds, "Pretty amazing, knowing that Addis received the same!" Derrick was proud of his running this season, and he can't wait for next year.

STICKING TOGETHER

Using teamwork, junior, Alycia Melick and sophomore, Sam Jebrael run together and help each other by keeping a good pace and conserving their energy.

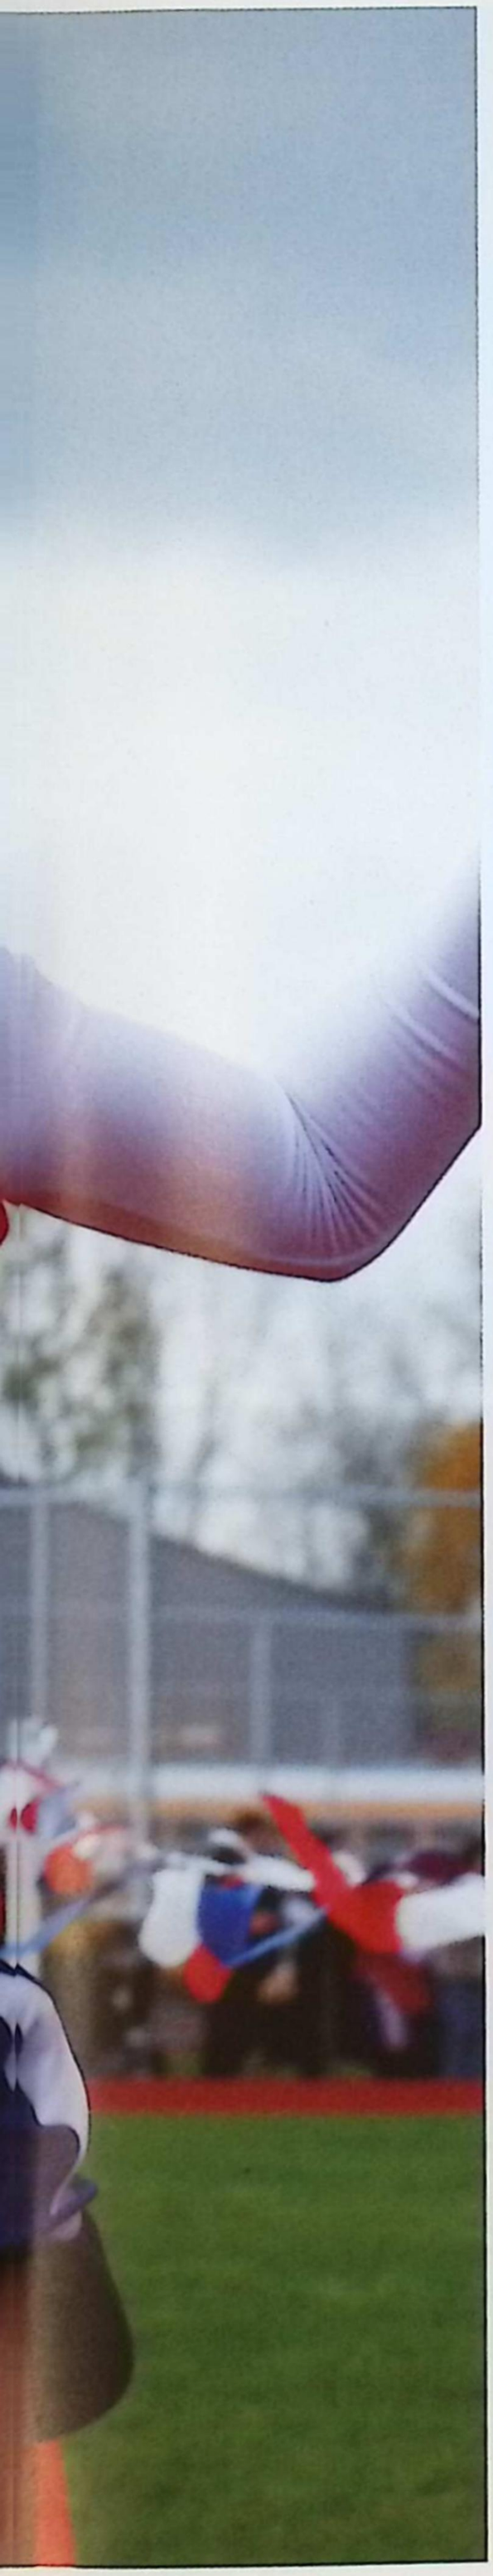


PERSEVERING

During her first cross country season, freshman, Sam Schwartz pushes through the pain and charges up a steep hill.

FINISHED

Exhausted, after finishing her race, sophomore, Kayla Smade is relieved to know that she scored a high place, once again.



CROSS COUNTRY

Motivation and Determination

Cross Country is a very demanding sport. It is as equally physical as it is mental, and this year's girls' cross country team succeeded very well in both. Coached by Mr. Fouchey, the ladies found themselves receiving high places and achieving their best times of the season. In order to attain their top times, the ladies had to push themselves to do their best. For example, freshman, Sam Schwartz got a time of 29:23 at one of her first high school meets. When the season was coming to an end, her times had decreased by six minutes and seven seconds to 23:56, a great improvement. At every meet, Sam improved her times, with the help of others. All of the girls helped each other reach their goals. Even if injured, the ladies were devoted to their team, and were there for one another. The Lady Saints bonded and became a very close team. It just shows that if you use teamwork everyone will benefit in the end.

The determination and motivation in the girls showed, and those are the two most important traits that can make a good athlete. Every single girl on the team persevered and never gave up. This is the main reason why everybody's times improved, making all of the coaches, parents, and teammates proud. Overall, cross country can be a very challenging sport, but at the same time very rewarding, as you can see.

AT THE GUNSHOT

At the beginning of the Regional meet, the Lady Saints try to get in front of the pack, and stay there throughout the race.

DESERVED REWARD

After the Regional meet, the girls' cross country team gathers to show off their hard-earned plaque.

The team had quite a winning streak, they beat Port Huron twice and they also beat Sterling Helghts, L'Anse Creuse North, Stevenson, and Richmond High School at all of their away games.

The extremely talented tennis team won seven of the eleven games they played, which was an excellent record. The team also had a large number of members this year. JV CHEER

We are in it to win it!

The JV cheer team was up beat and outstanding the whole season this year. They were always cheering their hearts out on the sidelines to make the crowd want to stand up and cheer right along with them. They had practice five days a week for three months, as they attempted to get every cheer and stunt down perfectly. All of their hard practice certainly paid off when they performed at the JV football games. They traveled with the football team to all the away games and showed opposing teams that the St. Clair Saints were there to win, as they cheered them on. All of these hard working and determined cheerleaders did a fantastic job this season and they certainly deserve a job well done.

Winter may seem like a slow, sluggish season that drags on forever, but here at SCHS, it is just the opposite. Everything seems to happen at once during the winter months, and everyone at SCHS feels the pressure. Between attending States for some organizations, and the always stressful winter sports season, it's amazing that students stay in control. Not to mention the demanding exams that require student's full attention; it really is a miracle that chaos doesn't take over the school.

WINTER 2008 - 2009

Instead, winter seems to be the season where students find themselves pushing their limits and achieving their goals. Students seem to make the best out of all the predicaments that winter throws at them, and because of it, everyone at SCHS grows from teenagers to young adults. Sure, it's a stressful season, but as in the words of Robert G. Allen, "The future you see is the future you get." So, as students continue to focus on a successful future, the cold wintry months will soon give way to spring and new beginnings.

Snow Days, Snow Daized, Snow Glazed

What is the first thing you do when you find out you have a snow day?

"The first thing I do when I find out I have a snow day would be going back to sleep, and then I spend the day with my boyfriend."

-M. Stevens, '11

-S. Denomme '10

"I change back into my pajamas, and I set my alarm for noon and snooze until then. Once the clock goes off, I have to go outside and shovel my car out!"

YEARBOOK

Holiday Dance

As the Christmas holiday was approaching, the Yearbook staff jostled together to plan a holiday dance before break. In just a short amount of time. They brought items from home, such as Christmas lights, snow, trees, garland, snowflakes and giant stuffed bags for their special guest: Santa Claus. As some staffers created the play list, others stayed after school to decorate the cafeteria on the day of the dance. After the boys' varsity basketball victory, students rushed to the dance to celebrate the win, AJ Magee's slam dunk, and enjoy the evening.

STUDENT COUNCIL

A Celebrity Encounter

The young girls that attended Hannah Montana night enjoyed events such as Hannah karaoke, Hannah TV, a dance party, hair and makeup, and they could even meet Hannah and Lola themselves, disguised by Sarah Zimmer and Lindsey Stallsmith. This was Student Council's first time putting on such an event, and they certainly had great results and hundreds of smiling girls enjoyed the evening.

This year, the Student Council took a new approach to choosing the theme for Winterfest: leave it up to the student body. A student poll, given out at lunch, resulted in the chosen theme of Mardi Gras, leaving the students here at SCHS more excited than ever.

ROBOTICS

With the annual Robo-Fest approaching in the beginning of April, the four groups of the robotics teams are on a mission to win. The events take place in Flint and the team will have to build a robot that is programmed to find a pop bottle on a table and move it, on its own. One student is acting separate from the rest; Sarah Henry is in an exhibition category where she is building a robot that is programmed to solve a Sudoku puzzle. Sarah is preparing such a robot with another student attending Port Huron High.

THEATRE TROUPE

The curtain falls, the audience leaves, the set is torn down, and what is left are the memories. This year, in theater, will forever be remembered for the first time there was a full house in the Performing Art Centers history; not to mention that it happened twice. Les Miserable was a show that at first didn't seem to want to happen With a cast that was mostly made up of freshmen, and a show that was nothing but music, many people, including theater veterans, didnt think the show would be one of our best performances. Thankfully, those doubts didn't seem to faze our director, choreographer, and vocal director. With nights that started at 2:45p.m., and ended at 10p.m., slowly the dedication our directors had started to infect the cast. With only one week before the show, everyone was crossing fingers, and hoping it all would come together. At the dress rehearsal, everyone was giving it their all; many learning for the first time how to apply grease makeup. The day of the show rolled around and still there was one scene that the cast had not even practiced, not to mention an entire scene that involved Andrew Wummel committing suicide that was never blocked, and there was only 20 minutes before the curtain went up. With five minutes before the show was scheduled to start, we were able to quickly script the scene; now all we had to do was hope for the best, and give it all we had. After two hours and twenty-one minutes, when the final curtain fell, we knew that the last three months of having our lives consumed with this show was worth it. As we went to greet out families and friends out in the lobby, tears were flowing because we had done it. Now the stage is set for next year and the stars that made the stage their home are moving on. So when will the next full house be?

WINTERFEST SPIRIT WEEK

MONDAY

MARDI GRAS BEAD DAY

The first day of Winterfest spirit week started with a Mardi Gras bead day. Students were asked to wear a combination of purple, green, and gold. Gold stands for power, green stands for faith, and purple stands for justice. Members of the Student Council handed out famous Mardi Gras bead necklaces as students walked into the building. During lunch, a bead toss took place with a trivia game about Mardi Gras and a scavenger hunt. By the end of the day, the school was filled with the three famous colors of Mardi Gras.

TUESDAY

WEDNESDAY

MARDI GRAS MASK DAY

Our Mardi Gras Winterfest celebration would not be complete if we did not include the famous Mardi Gras masks. The school was one big masquerade. Masks were purchased and some students brought in their own masks. Charity masks for UNCEF, the Breast Cancer Foundation, and the Support Our Troops Foundation were also being sold at lunch during the week. The classes participated in a game called Guess the Teacher in the Mask. Various teachers hid their identities under colorful masks and the students had to guess who they were.

FAT TUESDAY

The next day was Fat Tuesday. Fat Tuesday, a real holiday in New Orleans, was recreated here at St. Clair High School. Students were asked to bring a menu from their favorite take-out restaurant and lobster bibs were handed out at the beginning of the day. At lunch there was a Paczki eating contest. Students from each grade had to eat a Paczki before their opponent. To make it harder, they couldnt even use their own hands, a teammate from the same grade needed to use their arms to feed the person eating the Paczki. WINTERFEST SPIRIT WEEK

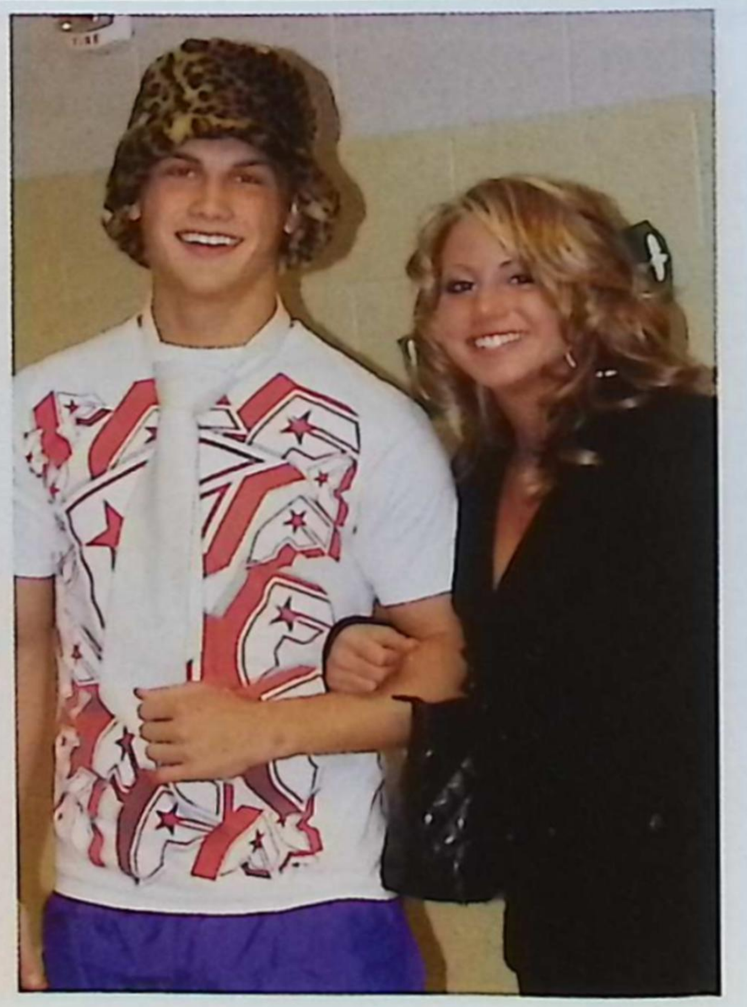
THURSDAY

FRIDAY

FINALE FRIDAY

In comes a different year, yet the same results continue to show. With the senior in the lead by only a few points, everyone files into the gym with their game faces on. The assembly quickly starts with a relay containing over sized shoes, and plus sized pants. The co-ed teams work together to get through events such as jump roping, and hulla-hooping. Fighting to get across the finish line, the seniors celebrate while completing the obstacles first. Rapidly moving along, the ever so common beads are brought out as a group from each grades stand in a sturdy line. Forced to stand stationary the person, as the target, works to get the beads around any one of their limbs. Not dropping a single bead, the seniors when yet again. While strapping on goggles, a few brave teachers volunteer to get pummeled in the face by students throwing paczki. The sophomores finally receive a win as they worked for the victory in a sudden death match. Without breaking a sweat, the seniors cheer with joy as they claim the ultimate prize: Champions of Winterfest.

SATURDAY



CLAIM YOUR CROWN THURSDAY

Truly dressed to impress, St. Clair students excitedly filter the hallways in formal gowns, and spectacular suits. Crowns are handed out at every entrance, as the glow of royalty shimmers throughout the classrooms. Important spirit points are continuously handed out, while every grade fights brutally to get a comfortable lead. As lunch finally approaches, students are challenged to show off their skills. Juggling and joke contests are all you see in the lunch room while everyone screams and cheers for their grade's participants. When the week quickly comes to an end, the students exhaustedly walk to their cars as they prepare for whatever Friday may bring.

WINTERFEST DANCE

The big day finally arrives as student attire matches the Marty Gras theme perfectly. Laughter and excitement rattles the hallways while friends reminisce about the previous events of the day. With streamers and lights hanging from the ceiling, the gymnasium resembles the party atmosphere of New Orleans. Groups of all types gather together to both sing and dance to every song played. As the night quickly winds down, everyone partners up, and with disappointment, acknowledges that one of the most memorable weeks has come to a close.

WINTERFEST DANCE

The Uproar of Mardi Gras

The background of this year's Winterfest theme, Mardi Gras, is essential information needed to explain the dance itself. Mardi Gras, which means Fat Tuesday, originated in the time of the Roman Pagan traditions, and spread throughout the European continent, finally reaching England and France. Later on, it was converted into a Christian based holiday. This became the Tuesday before Ash Wednesday, a time to celebrate tradition with parties, parades, and laughter, before Lent a fast for forty days leading to Easter. The French are the ones who brought this event, which will influence the eras ahead, to the heart of New Orleans. This time of letting loose consists of many little traditions, one being a game where people tried to find a baby/figurine inside of baked goods; after being found you are crowned king or queen of the day. Our dance on Saturday mirrored the traditional Masquerade Balls, which took place throughout the world in honor of the court. Many Saints grabbed their masks and beads, and joined in the fun to celebrate this historical event!

Senioritis

"We would fight for a cure, if we weren't so lazy."

Senioritis: (noun) "A crippling disease that strikes high school seniors. Symptoms include: laziness, an over-excessive wearing of track pants, old athletic shirts, sweatpants, athletic shorts, and sweatshirts. Also features a lack of studying, repeated absences, and a generally dismissive attitude. The only known cure is a phenomenon known as Graduation."

It begins early on in our senior year and seems to stick with us all the way to the last day of high school. For most, it usually starts with just a few missing assignments, then it leads to not doing homework, and it rapidly progresses to cutting classes and skipping school all together. When we walk down the hallways we no longer sprint to make sure we are on time, and detentions dont necessarily faze us. Seniors wear sweatpants and sweatshirts the majority of the time and some are on the edge of even failing classes. It is very difficult to study and concentrate in class, we are all striving to make it to the end and move on in life. However, we should still try to stay active and involved in high school the best that we can after all these are some of the best days of our lives.

Hallway Sweeps

Seconds after the minute bell, books fall from the students hands as they reach out to the door that is vigorously shut in their face. They continue to knock in hopes that someone will sneak them into the room. While staring at their destination, that was so quickly taken away from them, they dread looking back. Their hearts race and palms sweat while Mr. Miller walks around to pick up the students like dead mice. The ashamed group walks to the office in disgust and anger. The "straight A" students tremble with fear as they take the piece of paper that will soon ruin their lives. As the teachers continue to stand outside the doors, the word of the "sweep" filters through the hallways faster than one could ever imagine. With student tardies out of control, and vandalism on the rise, it became obvious that something needed to be done. Constantly searching for the latest ways to catch students off guard, the administration created a new method to get kids to class on time. With the "hallway sweeps" now in action, the numbers of tardies begin to decrease rapidly.

Baby It's Cold... Inside?

We all know that the weather outside is frightful, but does it have to be inside as well? Our classrooms seem downright frigid this witner and layering up for class is considered normal behavior. The majority of the rooms are cold, but there are a few that could qualify to hold the next winter Olympics. As Students make their way to the band room, they put on as much clothing as they can, in order to stay warm enough to produce music. Many students like Danielle Hicks worry that their fingers will freeze to their instrumentsl Students who have Mr. Clutts have been seen carrying blankets and winter coats into the classroom on a daily basis. At the other end of the building, freshmen students tremble as they dive into the icy waters of the pool for swim class. Whether this was your first year or last year of high school, or if you have lost count of the number of years you have taught here; at SCHS everyone shivers as they hear the groundhog announce, six more weeks of winter.

The Ole Switcheroo: Schedule Changes

As the first semester was coming to an end, the second semester schedules were being passed out to all students. Each student had mixed emotions about their new classes. Some students were upset and they hurried to arrange an appointment with their counselor. Unfortunately as they entered the counseling office, they were stunned at the sight of the Dreaded Dry Erase Board that said, No appointments were to be madel A feeling of fear swept over the students, and they picked up the very bright orange form necessary to change their desired classes. However, before they could pick their new classes they had to look at the master list that showed which classes were available. Here at S.C.H.S, the counselors can not make every student happy, but hats off to Mrs. Higgins, Mrs. Hayes and Mrs. Rutledge for attempting to change about 100 schedulesl

"Everyone falls the first time they go, though; it can be kind of hard to learn if you're scared." He added. However, many of the students here at SCHS didn't let their fear keep them from trying! There are over 100 members in the Ski Club who travel to their favorite spot to bundle up and fly down, Mt. Holly, every Friday, and Blue Mountain once a year. DEVON ILE AGENCY

At the beginning of our senior year we are faced with many different issues. In the back of everyone's minds are the same burning questions... "Where will we all go next?", "What should I do next?", "How will I get through this year?", "We're graduating?" We are facing some of the largest obstacles, and most challenging decisions of our lifetime. As a class we have grown to know each other; some have been together longer than others and some may be new friendships. But still, it's our time to move on.

SENIORS 2009

"Make it a great life or not, the choice is yours."

Over the years students have pushed themselves through hours of homework, tests, and exams. It is time to acknowledge the fact that one of the greatest gifts we have all been given is the gift of education. St. Clair teachers have taught, helped, and even yelled at us to push us to our fullest potential. Although, this made their job a little difficult; they never gave up on us.

As graduation nears, we are faced with leaving our friends and family behind. We are embracing new challenges and looking for new horizons to conquer. We have wanted nothing more than this moment for our entire lives and here we are...

24 Hours of Being Someone Else!

If given the chance, 90% of Americans would like to switch places with one other person for 24 hours. That means an entire day of being someone else, living a different life, possibly in a different town, with a different job. This sounds like an opportunity of a lifetime, I know who I would switch with, but do you?

Who would you switch with?

"A blind person, to know how it feels to not see anything and yet to be able to capture every single movement around you with all your other senses."

-P. Francozo

"My mom, because she seems to know everything and I would love to have that wisdom for even just one day!"

-S. Blake

"I would definitely want to be president, because it's really hard to get job shadowing for it, and I want to make sure it's something that I want to do."

UNDERCLASSMEN DIVISON

As the '08-'09 school year passes by, change takes place not only in the school, but the underclassmen undergo change as well. As the freshmen enter their first years of high school, they learn to adapt to the transition from middle school life, and take on more responsibility. They deal with harder academics, and even get involved with their first high school sports teams. Also, the sophomores are dealing with new and exciting changes as some get the

UNDERCLASSMEN

opportunity to get their license, and even their first jobs. Intense stress controls the minds of the juniors, who undergo huge changes as they mentally prepare themselves for the dreaded ACT. All three groups of underclassmen start to prepare themselves for the future. The natural changes that take place in the lives of these students help shape them into the bright, strong individuals that make up St. Clair High School's underclassmen.

The Perfect Hookey!

If you skipped school for the first time, what would your day consist of?

"I would definitely hit up the beach if it is warm. Then I'd go watch a new movie that came out, and after my eventful day is complete, I would hurry back into SC just in time for dance!"

-G. Jelinek

"Sleep... sleep... watch some TV, maybe get some grub, and then catch up on some more sleep."

-P. Hermesmeyer

STUDY, PREPARE, REPEAT!

With only a few hours of sleep, you can find most juniors hyped up on energy drinks and coffee to get them through their stressful days. Constantly worrying about SAT, ACT and college, juniors rarely have time to just relax and have fun. This is the year that every assignment, test and extra credit truly matters. Coming in early, and staying after late, most juniors spend as much time in school as they possibly can. Every senior warned them that junior year is the hardest, but with a smirk on their face and high confidence, they plan to go down swinging. As the year winds down, they can finally see the light at the end of the tunnel, while they put in that last college application and prepare for a long year of seniorities and sweatpants.

How to make your senior year, the best year yet!

JUNIORS 2010

CHELSEA MINNIE

"Hockey. Invented by men, perfected by women."

While many sports seem to be dominated by the male population, there is one junior girl that insists she change that. Chelsea Minnie plays hockey; she is hard core, tough, and not afraid to be different. Practically her whole life is centered around the sport of ice hockey; she has even played for about ten different teamsl She enjoys this sport more than anything, and for her, gender is not an issue when it just happens to be something she is passionate about.

Q & A with Chelsea Minnie

Q: How long have you been playing hockey?
A: For 10 years, you could say it is practically my entire life.

Q: What hockey team do you currently play for?
A: I play in Canada currently, for the Chatham Outlaws.

Q: Do you feel out of place being on an all boys hockey team?
A: No, not at all. It is where I belong.

Q: What do you enjoy most about playing hockey?
A: The feeling of scoring a goal and the sound my skates make on the ice.

Q: What position do you play currently?
A: I play center at the moment.

Q: What is your favorite position to play?
A: I love playing center and defense.

Q: What was your favorite team to play for and why?
A: The Flags Bantam AA team because I had the perfect coaches and teammates and I was proud to be playing a level higher than other kids in my age group.

ROCKY ROAD TESTS

What was the hardest part of your road test and why?

"The hardest part of my road test was when I had to back up into a parking spot, I was really nervous, but luckily I didn't hit any cones."

-B. Hazel

"Well, for me the hardest part was getting off the express way. It was really icy, and I ended up flipping my car, I was so embarassed!"

-K. Stone

The transition from freshman to sophomore brings many important changes here at SCHS. To begin, you're no longer the youngest, which comes with an entire slew of its very own privileges. One of which includes the ever important, 16th birthday. This is the year that freedom rings, the year that sophomores may get their license. However, getting there is quite a long road these days.

The first step to achieving this goal is the always entertaining segment one drivers training class, which most students take through Courtesy Driving School. Here they do worksheet after worksheet about the importance of signs, which lane they can turn in, and why going the wrong way on a one way street is a no-no. However, the most exciting part of segment one is that they finally get to drive. Six times throughout the month long course, they are required to schedule special driving lessons with an instructor, for most, this is gut-wrenching. Their hands sweat, their throat swells, and they are positive that they wont make it through, but in the end, they almost always do.

The next step most sophomores take after they've waited the required three months, and drove with a parent for at least 50 hours, is the even more exciting, segment two. This is only a three day long course, and when they've completed it they're on to the next and most important step, the road test.

The road test is, for many sophomores, the most important day of their life as of yet, (well maybe not the *most* important, but it's definitely close.) They have prepared for months, and they are so close to being able to come and go as they please they can taste it. Now, all they have to do is pass! Make it through the parking section, better known as cone world, a few left hand turns, and a four-way stop or two and you are golden! You passed, and you're ready to hit the open road for the first time alone.

Getting your license is a right of passage for sophomores across the country, and here at SCHS, it is no different. Along with the million other changes you go through as you move on from being a freshman into your sophomore year, growing up, and getting out is by far the most exciting!

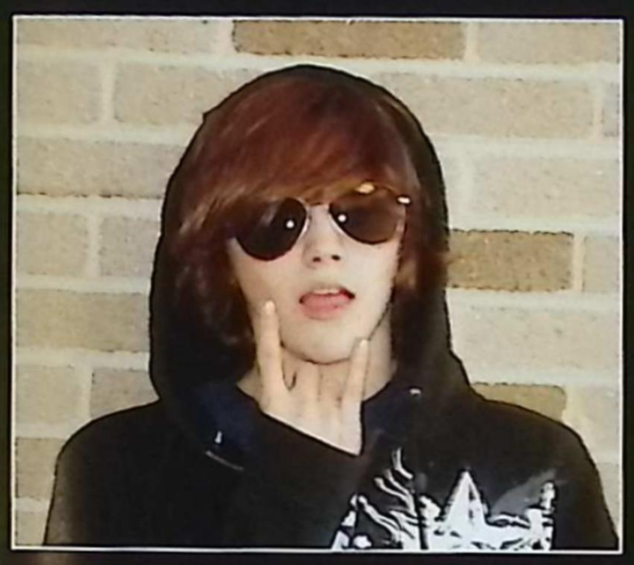
The Harsh Reality of Being a Freshman

Going into high school, freshmen worry about getting swirlies, getting picked on by the upperclassmen, and pure terror. In reality, life as a freshman is not that bad. The movies distort the mind of the typical freshman. Most seniors are actually supportive. Here are some of the freshman, and their many ideas about the new experience of high school.
What is it like being a freshman? Is all the senior terror real?

Jacob Geml

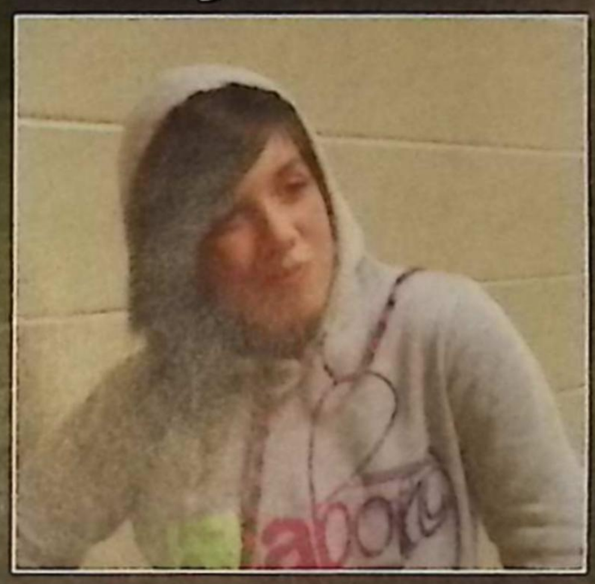


"It's better than I thought it would be for sure! The only bad thing is freshmen kill day, and it wasn't even that bad!"

Matt Koester

"It is not as bad as some people make it sound. There are some downs like the worst practice times for sports. The senior terror is not real, or were just not worth their time."

Taylor Eisen



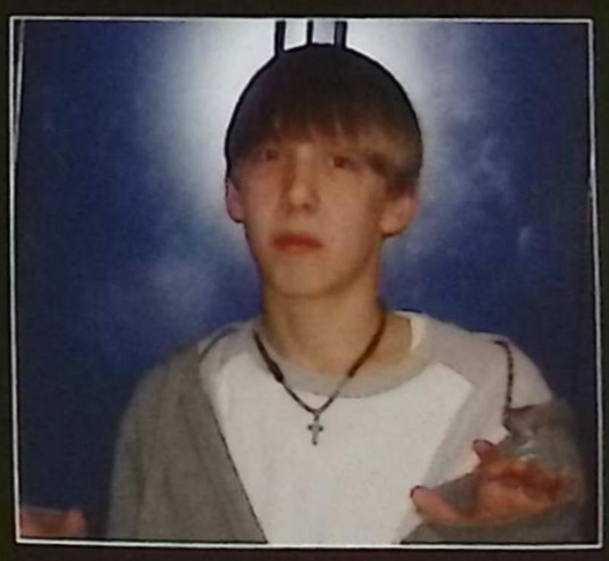
"Being a freshman is amazing. I love it and I've become closer with a lot of my friends. All the senior stuff is so not true!"

Cody Grubb

"It is really fun being a freshman. I wish it would last. Also, all those rumors were just meant to scare us."

Lots of the freshmen love their first year of high school, and they find out all the rumors are not true. Since their first year was good, hopefully they will enjoy their other three years at St. Clair High School!

Alex Haun



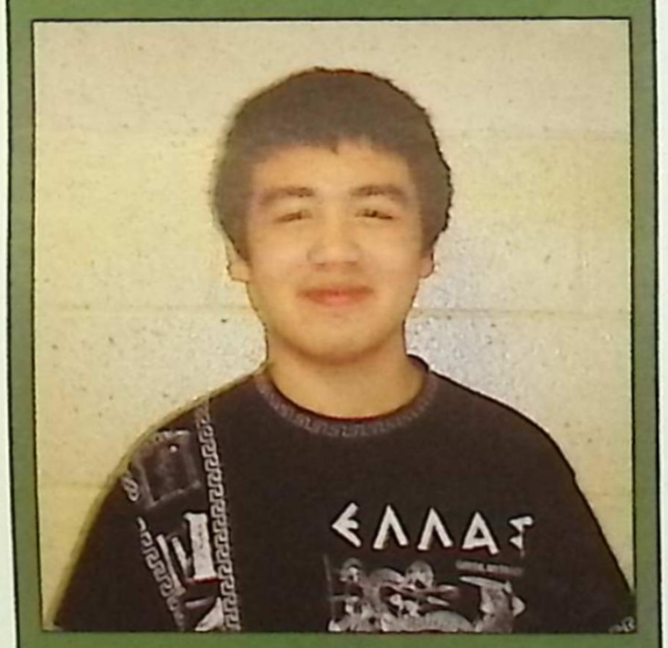
"Being a freshman is cool because there is a lot more to do at the high school than the middle school. The scary rumors are not true."

I Want Candy!

What is the weirdest candy you have ever eaten?

"I bought these candy zits and I was curious to see what they tasted like. I regret buying them because they were so gross! It was filled with this puss stuff and it exploded in my mouth. It tasted like rotten watermelon! I spat it out immediately. After I spat it out I discovered that some of it was in my hair, it freaked me out."

- K. Zoeplitz



"I bought these candies on vacation. It was a hard shelled candy and I bit into it. I did not know that it fizzed when you reached the middle. It was a bit of a shock when all of a sudden it just started fizzing in my mouth."

-C. Ball

Growing Pains: Freshman Year

The first year of high school can be stressful and overwhelming. Classes, homework, and friends take up the majority of time for students. That first year of high school can be an emotional roller coaster of ups and downs because of all that is going on in the life of a freshman.

The worst part of high school, according to Jessica Cain, is getting to know everyone and her surroundings. All ninth graders can relate to this because it is their first year in the building and they have not been here as long as the upperclassmen. High school can be a pain, but the only problems Nathan Bremerkamp has is that he thinks the classes are boring and he doesn't get to see his friends too often. That isn't too bad, considering that Taylor Eisen's biggest dilemma is being the youngest in the building. All of these points are definitely the negative sides to being a ninth grader, but it's not all bad, there are some positives too.

Probably the biggest positive of the first year of high school is that you don't have to worry about post high school plans. While Nathan Bremerkamp isn't worrying about college just yet, Taylor loves the fact that each year will get better, and her first year at SCHS was amazing. As a freshman, you have a little more freedom to relax and not worry about ACT tests, and all that goes with preparing for college. As Nathan and Taylor stay stress free and don't fret the future, Jessica enjoys the fact that freshmen are the smallest, so they can fit through the hallway, one of the biggest advantages of being a freshman.

Being a freshman can be demanding, but at the same time, the experience can be unforgettable. Throughout your entire high school experience, just remember that everyone is having the same issues, and you're not alone.

1 year down, 3 to go. . .

How was your first year of high school?

"I don't like how I will have the same locker for all four years, and it's far away from everything."

-H. Winkler

"An experience I'll never forget."

-R. Couls-Heitman

"It was exciting yet nerve-wracking."

-S. Edwards

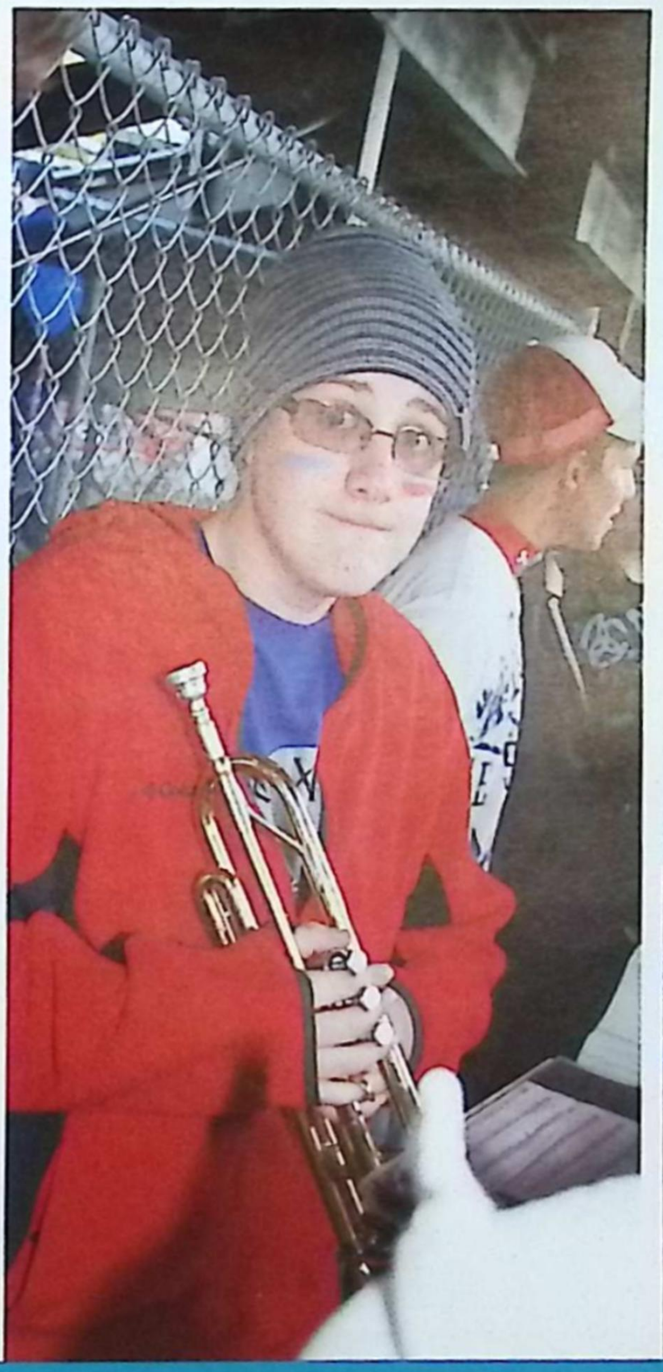
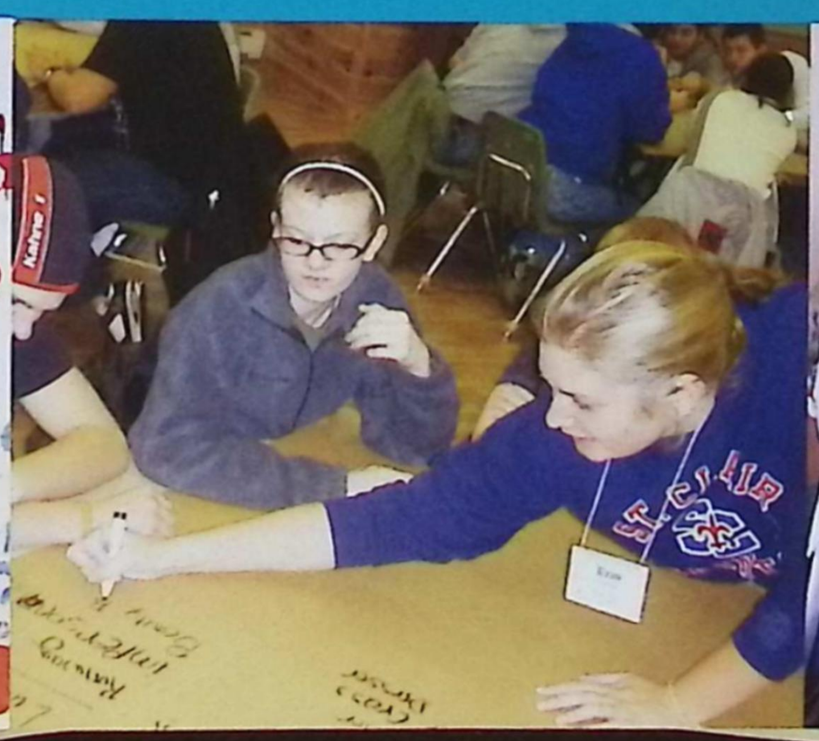
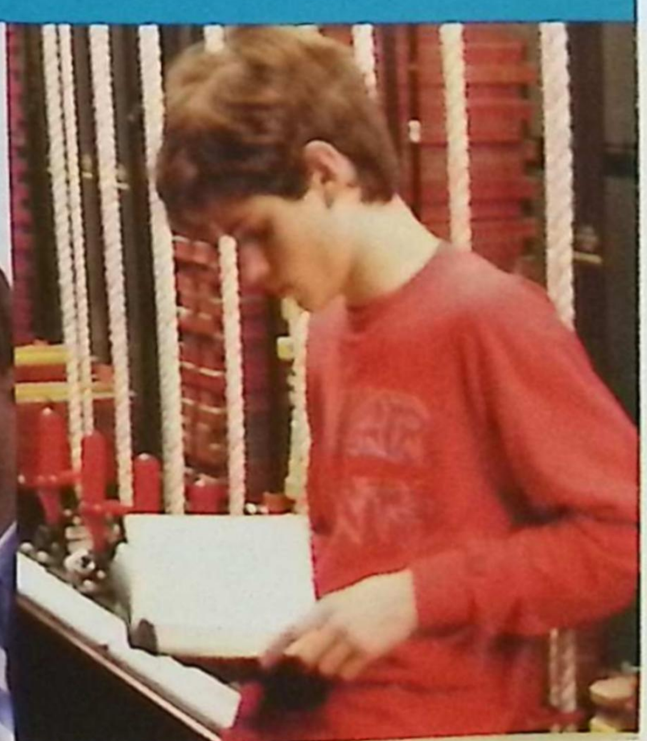
ORGANIZATIONS







As we all turn eighteen, our parents reminisce about the days of our birth; when we were oh so cute and could fit into their arms. Not only have we grown out of the stage of Barbie dolls and Matchbox racers, but we are about to be on our own. This journey has been shared with friends and family alike, and we can only hope that our futures are as promising as our past. Our parents have watched us struggle to walk and mimic their words until we could speak whole sentences. They have cried as they sent us to that first day of kindergarten, and laughed as we told them every detail of our days.

PROUD PARENTS

Parents sighed as they signed us up for that first team, or helped fit us for our first instrument. Later, they helped with that never-ending math homework, and cheered us on at our games. These people have taught us to drive, how to behave, and soon will let us go out on our own to conquer the world. It is these caring people that we must be ever thankful to for raising us, and helping us develop into the bright students that we are today. I doubt that the class of 2009 could have made our parents any prouder. However, it is in the following pages that our parents pay tribute to us one last time.

"Success!
It's doing your job the best you can,
And being just to your fellow man;
And staying true to your aims and ends;
It's figuring how and learning why,
And looking forward and thinking high;
And dreaming a little and doing much;...
It's being clean and it's playing fair;
It's laughing lightly at Dame Despair:
It's looking up at the stars above,
And drinking deeply of life and love;
It's struggling on with the will to win,
But taking loss with a cheerful grin;
It's sharing sorrow, and work, and mirth,
And making better this good old earth;
It's serving, striving through strain and stress
It's doing your noblest-that's Success!"

ALEXANDER BENDA

Alexander Kevin,
One day as a new born you road our shoulders spelunking into the depths of the Ozark caverns. The next day you were speaking German as we hiked the Australian Alps. A couple of days later you were sliding down the snowy slopes of Valdez, Alaska. By the weekend you were sunning yourself on Virginia Beach in Virginia. I swear it was only a week later and you were playing football and gathering pumpkins in Michigan. It was but a couple of days more and you were surfing the waves in Waikiki, Hawaii. Mother and I woke up in amazement this morning, to find you have grown into a handsome young man graduating from high school. Our baby, the love of our life, you have traveled the world and have grown to be one with the world. We love you. We'll always be a part of you and with you where ever you may roam. You are our pride, our joy, our baby boy who is now a man.
Love, MOM & DAD :o)

YEARBOOK SENIORS

2008-2009 Senior Yearbook Staff-

Well, what can we say? You have been the foundation to our staff this year...without you, it is almost certain this book would not have happened. From the countless hours of editing, writing, taking pictures, & checking coverage reports, to stepping up and helping us get out of the hole, financially. Each of you has brought something truly special to our staff.

We love you guys, and we'll miss you...

Laura- Thank You, Thank You, Thank You...for dedicating four years of your life to our staff. Your ideas, experience, and passion has elevated this year's book to a whole new level. You have matured into an unbelievable leader and friend. You should be very proud of this book...it is a reflection of you!

Amanda- Thank you! You probably had one of the least thankful jobs on our staff. Your organizational skills surpassed any of our expectations. Your follow-through and dedication helped move our book into the black for the first time in years.

Amy- Thank you for your thoroughness. You have been our second set of eyes all year long. We appreciate the fact that you took charge and looked for flaws in our work so that our book could be awesome!

Benda- Thank you for your knowledge of photography and photoshop...and your undying patience. Being one of the only male staff members is difficult enough, but it didn't matter what we would ask you to do, you were up for the challenge.

Muskan- Thank you for providing us with a light-hearted atmosphere. Everyday we could count on you to say or do something that would make us laugh, even in the most stressful times.

Allie- Thank you for joining our staff your senior year. We know it's not easy trying to learn everything relating to yearbook in one year, but you were dedicated and willing to take constructive criticism which ultimately reflected in your work.

SEASONS OF CHANGE
90-08-09

COLOPHON

The thought process of this book started long before the school year had even begun. The winter months of 2008 gave us the idea for the general theme of the yearbook, change. After many visits with our Jostens Rep, Mike Page, we had finally decided to change the book into a spring delivery. A spring delivery in itself is change enough for our yearbook, but we wanted to continue it and change the ladder of the yearbook. A chronological ladder was created. The book was to be separated into four seasons beginning with the summer of 2008 and ending with the spring of 2009. Our title was obvious after this change. Thus, *The Seasons of Change* was created. In this day and age, we are seeing change everywhere. St. Clair High School was no different. Many organizations had themes such as change intertwined within them. The change in the yearbook class began with the addition of 8 new staffers, who were all to learn the many challenges of creating a yearbook. I believe that every staffer did a great job this year. The work load had doubled from the previous year and the deadlines were huge, but everyone did their best to make the finished product what it is today. Thanks for the countless hours on Yearbook Avenue, creating, designing, and editing pages the best they could. Everyone did a great job adjusting to the difficult tasks of the class.

Technicalities-

This year's book was published by Jostens Printing and Publishing in State College, Pennsylvania. For the fourth year in a row, the 248 page book was published in all color. Last May, the design for the cover came to life with the help of a Jostens artist and Allie Handlon's creative art skills. Our Jostens Sales Representative was Mike Page, who really helped us through our first spring delivery. Our in-plant consultant was Shelley Foster. This book is decorated with an array of different fonts. The headline fonts were Eurostile Bold and occasionally Abyss. The copy fonts were Aramar, Olive Oil, Optima and Tekton. The staff worked on the production of the yearbook in our computer lab. Every staffer was assigned to their own computer. With 16 computers equipped with Windows XP Professional, all of the work was completed. We logged into Jostens Yearbook Avenue for the second year to design, create, and edit the book. Our photographers and staff used Adobe Photoshop to crop and edit photos.

The last page of this yearbook is another photograph taken by our very own Alex Benda. He had a vision and we knew that we could not let it go. Giving Benda the last page of the yearbook is one final way to thank him for his hardwork and dedication throughout the school year. In the future we hope to open this page to any willing student at St. Clair High School.

THANK YOU, THANK YOU!

Mrs. Badley, Mrs. Butlin, Mrs. Mead, Mrs. Rinehart, Mrs. Robins, Mrs. Steenland, and Mrs. Zoeplitz-
Thank you for helping us accomplish this yearbook. Without all of your help, the book would have never gotten finished. Your smiling faces and open doors always left us knowing it was okay to ask for more. Thank You.

Mrs. Short and Mrs. Peterson-
Without your persistent attitude and gratuity of giving us your photos, our book would have never made it. You were always on the sidelines snapping away and we cannot thank you enough for your help.

Mrs. Westrick-
Thank you for not giving up on me, for letting me follow a dream, and for always supporting me. This year has been amazing and you have only made it better. I know I could have never done this without you. You have spent so much time helping me and talking to me about yearbook, it's about time we get a break. Hopefully your summer vacation is stress free, unlike the last. Thank you for your support, your always open ear, and your advice about everything. I truly appreciate all that you have done for me and this book.

Staff-
All of you have seen me at my best and my worst! You have all worked so hard to finish this yearbook. I appreciate what each and everyone of you had to contribute. Whether it was Muskan's *hillarious* jokes, Annie's silly little stories; Sam's chiropractic clinic, Dear Amanda's organizational skills; Lauren "Fave" Bondy's perfect cutlines, Alex Bernardi's yearbook/locker room; Buffa's laughs at our bad jokes, Amy's coverage report dedication; Hannah's stress level through the roof, Allie's eye for photography; Katie's enduring spirit, Lauren Clemens' making our days brighter; Breezer's never ending list of complaints, Mel's committed attitude, and Alex Benda's creepiness and ability to make us feel better about ourselves; you have all added a part of yourself to this book.

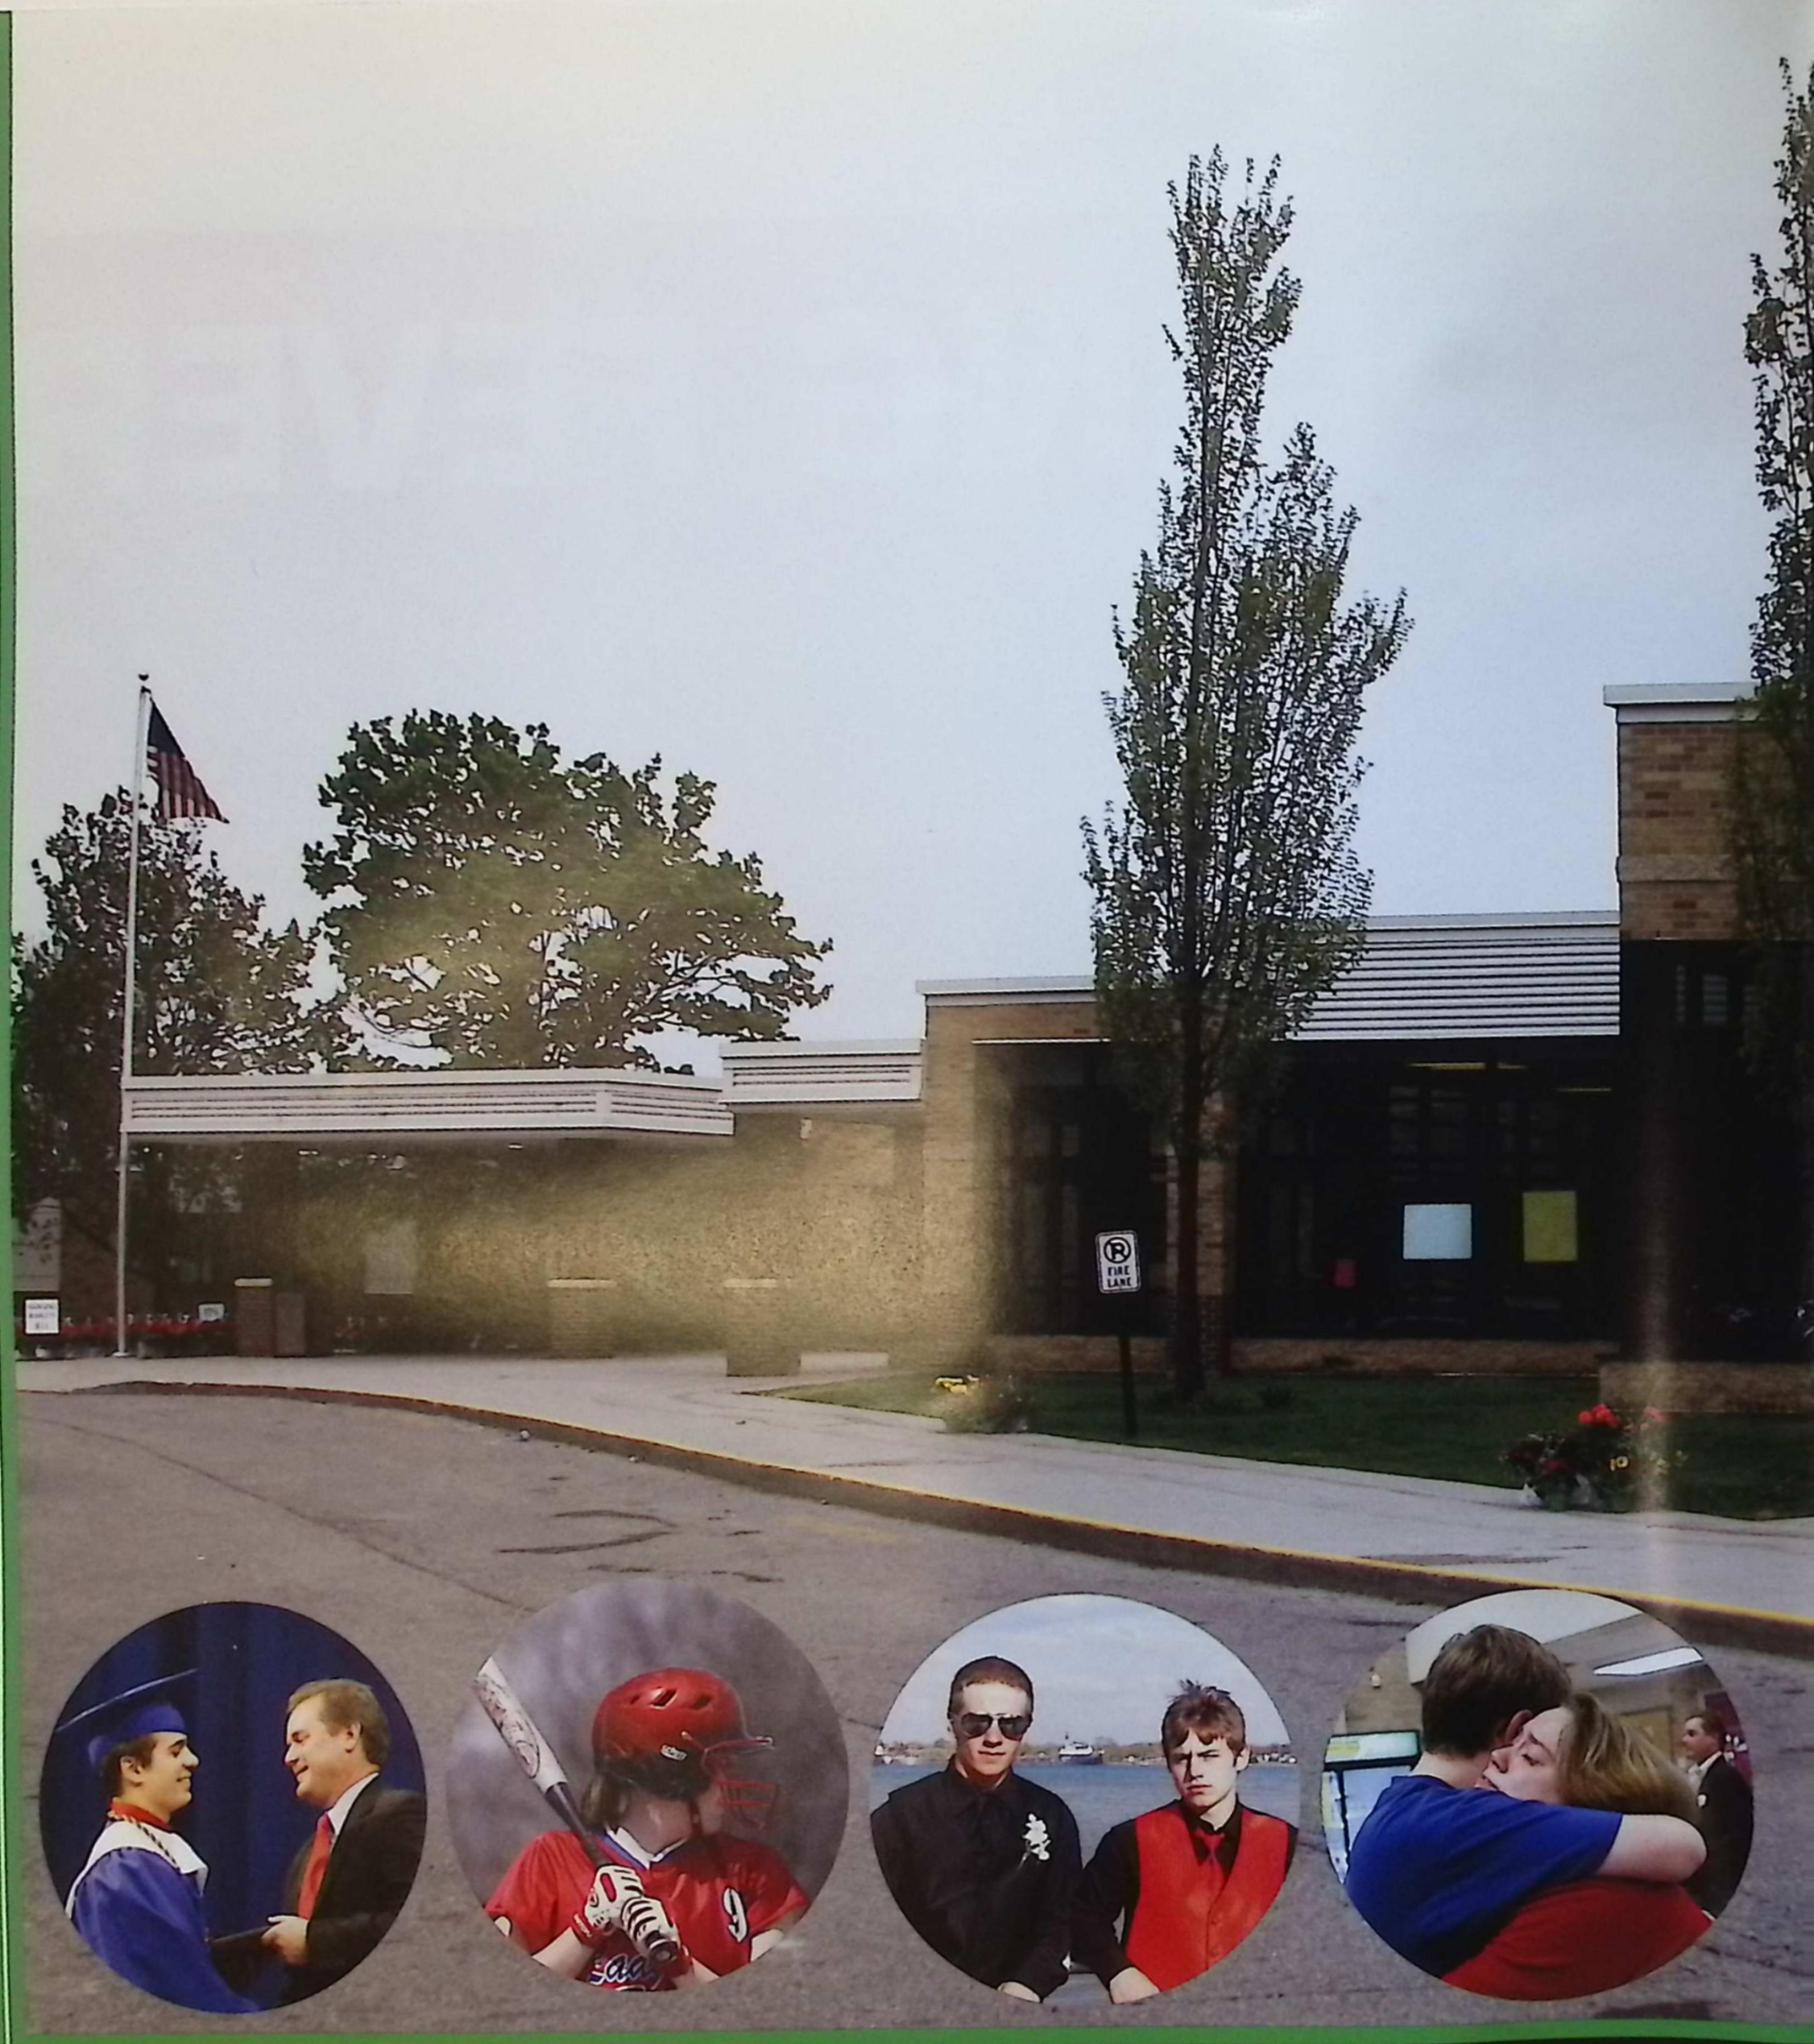
SPRING DIVISON



PAGES 250 - 251

The leaves are green again, the birds are singing, and everything seems to be refreshed and vibrant. Spring has arrived! Throughout SCHS, the tiny miracles of spring can be seen almost everywhere. Students bust out their flip flops for the first time since the beginning of the school year, and everyone becomes anxious as spring break quickly approaches. This time of year is exciting yet bitter sweet for students, because it marks the beginning of the end. Soon, the year will be over and seniors will inevitably go their separate ways, while the underclassmen prepare

SPRING 2009

for what is sure to be the best summer yet. The road that lay ahead, though uncertain, is promising, and reminds us all of the journey that made us the people we are today. As spring comes to an end, and the 2008-2009 school year with it, we can always look back and reflect on the memories, the tears, the laughter, and the love that made this year different from any other. We will always remember the millions of moments that shaped our past, and will without a doubt, impact our future.

STUDENT COUNCIL

Prom Preparations

Alexander's - Prom 2009

The stress, the drama, what's all the commotion about? Prom! For all Student Council members, they all know that Prom season always rolls around a little too quickly. We find ourselves enjoying life on Spring Break, only to return to school, with pre-Prom stress. And then, there is the theme. The theme of Prom is never as over the top as Homecoming, but still, the time it takes to come up with the perfect idea is something that members are always thinking about. But for an individual Student Council member, preparing for Prom can be a lot more stressful. It is much more than, the usual Prom questions such as, what dress should I wear? Who should do my hair? These are just a few things that must be handled. The more difficult questions such as, what will the students like the most? What dinner should be served? What about the decorations? All of these elements of the dance are chosen by the members, but are enjoyed by all.

CHOIR

Four years of Choir, all to end on the day of your senior graduation. Singing at the commencement ceremony can often be a very difficult thing to do. But, on the other hand, it can also be a huge accomplishment. After years of singing at winter concerts, numerous assemblies, and Festival of the Arts, it all ends on one of the most important days of a senior's life. Senior members of the Choir all stood and walked to the risers to sing their final piece as a high school student. A difficult moment, no less, but a moment that was full of pride.

THEATER TROUPE

Spring Play

This year the Theater Troupe chose the classic, *Death of a Salesman* for their spring production. This play had many challenging roles that really tested our young actors' abilities. So, how did they get into their character? Christian Jones, who played Biff Loman, told us about his experience. "Getting into the character seemed like a challenge, but it turned out to be easier than I thought it would be." He said, "I occasionally found instances where I could become Biff out of theater. I got angry over tiny things and I showed off some of my skills just like Biff would do for his father. I tried putting a lot of myself into Biff and I sort of became him." Things turned out great for Christian, but what about the main character? Zach Parkhurst, who played the main role of Willy Loman, took a different approach. "I studied the character every chance I got. I did a lot of research and I memorized a lot of information about him. It really helped me get into the character and it helped me understand his point of view throughout the play." The young actors did an amazing job creating these characters on stage and it just goes to show how much hard work goes into the Theater Troupe's productions.

National Honor Society

The National Honor Society's number one fundraiser this year was for the March of Dimes. The March of Dimes program helps give babies a healthy start, and gives families the care that they need. The NHS thought that this program deserved their efforts. So, they raised money with many different fundraisers, including a bake sale. Members brought and made delicious treats to sell at school, and they received about $1,200 to donate to the March of Dimes. Some individual members even went to the actual March of Dimes event where they walked six miles to raise money. This needy charity was glad to have the support of our SCHS students.

GSA

Day of Silence

B. Price, G. Faustyn, S. Li, R. Loftis, T. Cichocki

The GSA organization participated in the Day of Silence to help show what they stand for. The purpose of this day was to bring attention to anti-gay, lesbian, bisexual, and transgendered name calling, bullying, and harassment. So for the entire school day, members did not talk and unless a teacher gave them permission in class. As a sign of the students participation, they wore red and received red wristbands that had Day of Silence written on them. This day was for a good cause and they got to show the entire school that tolerance for people who are different is the best choice.

Electric Car Team

Q : What is your favorite part about a race?

"I enjoy seeing the other cars and how other kids have built them. It is fun to go and see all of the different ideas and designs."

-H. Erdman '11

"I like driving our cars the most. It is a lot of fun and it is neat because you got to help build them first!"

-D. Anderson '11

Yearbook

Distribution

When the yearbook staff finished the book, they knew that in the coming weeks, soon our books would arrive. And along with that the students would become restless as they anticipated the arrival of the 2009 yearbook. When the books finally arrived, staffers were prepared and ready. All it took was some tweeking of the new process. The intervention room was the location of all the mayhem and this time it ran smoothly. The buzz of the students who had been anticipating their yearbook all day was finally relieved once they entired the intervention room and got their book. The three long lunch hours seemed to pass slow, but it all paid off in the end.
